  No. 2. Joao Cambuete ................................................................................................. 72
  No. 3. A freira (The Nun) ........................................................................................... 75
  No. 4. Garibaldi foi a Missa (Garibaldi went to Mass) .................................................. 78
  No. 5. O piao (Oh Whirligig) ..................................................................................... 82

  Album IV
  No. 1. O pobre e o rico ............................................................................................... 87
  No. 2. Rosa amarela (Yellow Rose) .......................................................................... 90
  No. 3. Olha o passarinho, domine! (Look at the Little Bird, Domine!) ......................... 93
  No. 4. O gato (The Cat) ............................................................................................ 96
  No. 5. O sim! (Oh Yes!) ............................................................................................ 98

  Album V
  No. 1. Os pombinhos (The Little Doves) ....................................................................... 102
  No. 2. Voce diz que sabe tudo (You Say You Know Everything) .............................. 104
  No. 3. Co, Co, Co! ..................................................................................................... 107
  No. 4. O bastao ou mia gato ...................................................................................... 111
  No. 5. A condessa (The Countess) ............................................................................. 114

  Album VI
  No. 1. Sonho de uma creanca (A Child's Dream) ....................................................... 122
  No. 2. O corcunda (The Hunchback) ......................................................................... 125
  No. 3. Caranguejo (Crab) ......................................................................................... 128
  No. 4. A pombinha voou (The Little Dove Flew Away) ............................................... 132
No. 5. *Vamos atras da serra, oh! Calunga!*
(Let's Go Behind the Mountain, Oh! Calunga!) ................................................ 135

*Album VII*
No. 1. *No fundo do meu quintal* (In My Backyard) ............................................. 139
No. 2. *Vai abobora!* (Some Pumpkin!) ............................................................. 142
No. 3. *Vamos, Maruca* (Let's Go, Maruca) ......................................................... 146
No. 4. *Os pombinhos* (The Little Doves) ........................................................... 149
No. 5. *Anda a roda* (Round the Circle) .............................................................. 152

*Album VIII*
No. 1. *O limao* (Oh Lemon) ............................................................................... 158
No. 2. *Carambola* ............................................................................................... 160
No. 3. *Pobre cega* (Poor Blind One) ................................................................. 162
No. 4. *Pai Francisco* (Father Francisco) ............................................................. 164
No. 5. *Xo! passarinho* (Shoo! Little Bird) ........................................................... 167
No. 6. *Sinh'Aninha* (Miss Aninha) .................................................................. 169
No. 7. *Vestidinho branco* (Little White Dress) .................................................. 171

*Album IX*
No. 1. *Laranjeira pequenina* (Small Orange Tree) ........................................... 175
No. 2. *Pombinha, rolinha – brinquedo de roda* (Little Dove, Little Pigeon – round song) ................................................................................................. 178
No. 3. *O ciranda, o cirandinha* – round song .................................................... 181
No. 4. *A velha que tinha nove filhas* (The Old Woman Who Had Nine Daughters) ........................................................................................................ 184
No. 5. *Constante* (Faithful) ............................................................................... 187
No. 6. *O castelo* (The Castle) .............................................................................. 189

*Album X*
No. 1. *De flor em flor* ....................................................................................... 193
No. 2. *Atche* ....................................................................................................... 196
No. 3. *Nesta rua* .................................................................................................. 198
No. 4. *Fui no Itororo* (1st version) .................................................................... 201
No. 5. *Mariquita Muchaca* ............................................................................... 206
No. 6. *No Jardim celestial* .................................................................................. 209

*Album XI*
No. 1. *O Anel* ..................................................................................................... 214
No. 2. *Nigue Ninhas* ......................................................................................... 222
No. 3. *Pobre Cega* ............................................................................................ 226
No. 3. *A Cotia* .................................................................................................... 230
No. 4. *Vida Formosa* ....................................................................................... 232
No. 5. *Viva o carnaval* ..................................................................................... 237

CHAPTER FOUR – Summary and recommended suggestions for further study .............. 244

BIBLIOGRAPHY .................................................................................................................. 246
ACKNOWLEDGEMENTS

I would like to express my deepest appreciation to my piano teacher, advisor and friend, Dr. Ray Kilburn. You have challenged me and offered me continuous support throughout this project and my studies at Ball State. Your academic excellence, combined with an unconditional friendship has been invaluable.

I am grateful to Marcelo Rodolfo at the Museu Villa-Lobos in Rio de Janeiro for his help with this project. His generous attitude, regardless of the distance, was always a motivation. The assistance of Manoel Corrêa do Lago in Brazil and Dean Frey in Canada was vital to complete this project.

Special thanks to my dear friend Jessi Burkey for his unreserved help as proofreader. I will be always thankful music made us friends and keep giving us wonderful opportunities to grow up as musicians and friends. Thanks also to Isabel Meza, for her unrestricted support in every moment. To my family, who have been always there regardless of the distance, GRACIAS!
ABSTRACT

Heitor Villa-Lobos, a native Brazilian, is one of the most significant Latin American composers, known for his distinct combination of indigenous music, European musical training and Brazilian folk music. In addition to his career as a composer, Villa-Lobos was involved with music education in Brazil. He was the chair of SEMA (Superintendence of Musical and Artistic Education). During his tenure with SEMA, he established music as a required subject in all schools through the study of choral singing. It was this period that led Villa-Lobos to compose his *Guia Prático* (Practical Guide), a collection of songs based on Brazilian folk music.

Based on the original material of the *Guia Prático*, Villa-Lobos composed eleven books for solo piano, each one containing five to six pieces. The result is a varied collection of piano pieces that reflects the spirit of Villa-Lobos and his Brazilian soul. Though intended for pedagogical purposes, many pieces are too complex for the novice pianist.

In this project, I have compared the existing manuscripts of the choral version of the *Guia Prático* and subsequent published versions, as well as the current piano version. With all the available scores, I began a comparison of each piece contained in the piano version. During this process, many questions arose regarding notation and editing. Therefore, in each piece I indicated the variants between scores. Some pieces are essentially identical to the original score but are included to complete the collection. The result is a revised and edited performance edition of the complete *Guia Prático for Piano.*
Heitor Villa-Lobos was born on March 5, 1887 in Rio de Janeiro, Brazil. His father, Raul Villa-Lobos, a respected librarian and amateur musician, introduced the young Heitor to classical music. This contact was at his house, where the Villa-Lobos family organized gatherings with respected musicians every Saturday. These meetings continued for many years, making a crucial impact on Villa-Lobos’ musical development. In addition, his formal musical training started at six when his father taught him to play cello on a specially adapted viola. As a result, Villa-Lobos was exposed from a young age to European art music.

During the 1880’s the classical music scene in Rio de Janeiro was growing gradually. Several operas were presented and different music associations were founded. However, during this time period the Villa-Lobos family was advised to leave the capital for political reasons. Villa-Lobos’ father, who was also a member of the Republican movement, became embroiled in political scandals because of some polemical articles he wrote. Therefore, the family spent several months in the interior of Brazil. It was during this time that Villa-Lobos first experienced rural music. He became acquainted with modas caipiras (folk songs) and had direct contact with folk-guitar players.
When the family returned to Rio, Villa-Lobos continued his cello lessons. He started piano lessons with his aunt Fifinha, who was a good pianist and especially fond of Bach. She introduced Tuhú (Heitor’s nickname) to the preludes and fugues of the “Well-Tempered Clavier.” During this time, Villa-Lobos came in contact with another type of music that was played in the streets and squares of Rio de Janeiro: the chôro. This type of music inspired Villa-Lobos to study guitar secretly. He kept this from his parents because they considered music of that kind related to delinquent behavior.

This combination of popular and classical music would influence Villa-Lobos to introduce new musical forms. He combined urban music with modern compositional techniques in two of his most important works: the nine *Bachianas Brasileiras* and the fourteen *Chôros*.

Heitor Villa-Lobos continued to pursue his interest in folk music after his father’s death in 1899. Instead of following his mother’s desire for him to become a physician, he decided to travel into the interior regions of Brazil. In 1905, when he was 18, Villa-Lobos sold the library left by his father to support the first of several trips into the interior of Brazil. He also went to the North and Northeast of the country. It was during these trips that Villa-Lobos was exposed to native Brazilian music, which would be the inspiration for many of his compositions. Although he absorbed everything he heard, he was not an ethnomusicologist in the formal sense like Bela Bartók. He made no formal records of his trips. In fact, Villa-Lobos once tried a formal education in music theory and composition at the *Instituto Nacional da Musica*. These studies were short lived because he found the
teaching still rather conventional. In a later interview when he was asked about his studies, he pointed to a map of Brazil and replied: “This is my conservatory”. 1

When he was 28, Villa-Lobos married the pianist Lucilia Guimarães. This event was a turning point which caused him to start leading a more settled life. He played in restaurants and even began to write reviews for newspapers. The year of their marriage, 1915, marked the beginning of an enormous increase in Villa-Lobos’ compositions. Works such as the symphonic poems Amazonas, Naufragio do Kleonikos, and Uirapuru began to spread the name of Villa-Lobos as an established composer. Thanks to his compositions, Villa-Lobos had the opportunity to come in contact with Darius Milhaud and Arthur Rubinstein during their visits to Brazil. After this meeting, Rubinstein included Villa-Lobos’ Piano Suite A Prôle do Bébé in his permanent repertoire.

By 1923 Villa-Lobos was well-known in Brazilian music circles. This allowed him and his wife to go to Europe, funded initially by a Brazilian government scholarship. After they settled in Paris, Villa-Lobos gradually won the respect of the innermost circle of that city’s musical group. At the same time, renowned performers such as the pianist Arthur Rubinstein and the soprano Vera Janacopulus were performing his works in different countries. Villa-Lobos later became professor of composition at the International Conservatory in Paris. He had the opportunity to play and conduct in the major cities of Europe, and started working as an editor at Max Eschig’s Publishers. All of this further established him as a recognized composer.

From 1926 to 1930, Villa-Lobos returned to Brazil several times to conduct multiple concerts. In 1930, the political situation of Brazil changed drastically with the

---

revolution led by Getúlio Vargas. When Villa-Lobos returned permanently to Rio in 1932, he found a completely different political situation. This paved the way to a new area of emphasis in his career: the role of music educator.

Villa-Lobos started his work as music educator with a concert tour of 54 rural towns near São Paulo. These concerts included works by Chopin, Tchaikovsky, Debussy and Villa-Lobos himself. The reaction to these presentations was very diverse. According to the local papers, the ensemble was formally received. This included speeches and ceremonies with the awarding of medals of honor. However, in other towns, opposite reactions occurred especially because of Villa-Lobos’ speeches. In those towns the group was obliged to escape from its hotel in the middle of the night.

In 1932, when Villa-Lobos was 43, he came in contact with the government of President Vargas. Villa-Lobos received government support to found SEMA (Superintendence of Musical and Artistic Education). As the superintendent of music in Brazil’s schools, one of his first acts was to make music a required subject in all schools through the study of choral singing. Villa-lobos felt that all people needed to be musically educated in order to understand serious music. He focused his efforts on choral music because he considered it the most simple and efficient way for someone to get a musical education. At the same time, his approach was a reflection of the political attitude of those days: the idea of a collective Brazilian identity and “building a nationality”.

Following this philosophy, during the 1930s a Professor’s Choir was created. Under the direction of Villa-Lobos, massive choral concerts were organized in stadiums culminating with a group of 40,000 students in 1942. It was during this time that Villa-

---

Lobos emerged as one of the most important figures in Brazil and many people began to consider him the musical representative of all Latin America.

The educational activities of SEMA continued until the creation of the National Conservatory of Orphic Singing in 1942. Villa-Lobos maintained his interests in both organizing music instruction in Brazilian schools, and in Brazilian music. These factors inspired him to compose his *Guia Prático*, a collection based on Brazilian folk songs. Villa-Lobos planned the publication of six volumes, however, only the first volume containing 137 songs was published. Although Villa-Lobos was inspired by Bartók and Kodály’s efforts, this collection should not be compared to the scientifically exact collection of Bartók. While this collection is not considered a resource for the study of Brazilian folk music, it is an important source for the study of Villa-Lobos’ unique style.

---

3 Orphic meaning choral.
CHAPTER TWO
GUIA PRATICO FOR PIANO

Background

In 1932 Heitor Villa-Lobos composed a collection of choral pieces titled *Guia Prático*. *Guia Prático*, which means “Practical Guide,” is based upon Brazilian folk melodies and poetry. It was intended as an educational tool aimed at elevating musical standards in schools while incorporating Brazilian folk music. Villa-Lobos also wrote a second version of *Guia Prático* for solo piano. Based on the original material of the first version, Villa-Lobos composed eleven books for solo piano with each book containing five to six pieces. The *Guia Prático for Piano* is part of an extended and varied output for piano which contains over two hundred compositions for solo piano. Villa-Lobos demonstrated that regardless of the fact that he was not a pianist (the cello was his primary instrument), he had a remarkable understanding of the technical and expressive possibilities of the instrument.

*Guia Prático for Piano* has been published by several different publishers. However, there is not a complete publication of the entire eleven albums. Furthermore, current editions contain many mistakes and lack clear indications for correct performance. This dissertation intends to provide an updated and corrected performance edition of all eleven albums in the *Guia Prático for Piano*, and will make direct reference
to texts in the choral version. It is hoped that providing the texts will lead to a more thorough understanding and interpretation for both teachers and students.

**Review of Literature**

There are only limited resources related to the works and life of Heitor Villa-Lobos. To begin with, the book *Heitor Villa-Lobos: The Search for Brazil’s Musical Soul* by Gerard Béhague is an excellent biographical study. It provides an analysis of his three main periods and the most important musical influences during his life. This book also studies the musical language of each period, and the final chapter is dedicated to the discussion of national style versus musical nationalism in Villa-Lobos’ music. *Heitor Villa-Lobos, The Life and Works, 1887-1959*, by Eero Tarasti presents one of the most complete resources about the works of Villa-Lobos. This book contains not only significant biographic references, but also a more detailed musical analysis of Villa-Lobos’ main works, such as the *Choros* and the *Bachianas Brasileiras*. The first chapter, “A Survey of Music History in Latin America,” is also an excellent article about the music scene in Latin America during the first half of the 20th century and its main composers.

Lisa M. Peppercorn is one of the most important authors dealing with relevant bibliographic and historical sources about Villa-Lobos. In her book *Villa-Lobos, Collected Studies*, Peppercorn presents thirty one articles about Villa-Lobos’ life, music, and works. Peppercorn also presents “The Villa-Lobos Letters,” a collection of letters between Villa-Lobos, his colleagues, and his family that covers a time period of more
than thirty years. These letters are classified chronologically, offering an accessible approach to his works as well as his personal life.

Another important study is Simon Wright’s *Villa-Lobos*, which offers an overview of the main works of the Brazilian composer. Wright includes a combination of biographical notes and musical analysis. Vasco Mariz’s *Heitor Villa-Lobos, Brazilian Composer* also follows this format. This book also includes Villa-Lobos’ main works; however, the musical analysis is more superficial. To celebrate the centenary of Villa-Lobos’ birth, the Villa-Lobos Museum published a biography with a catalog of all of his works. This book, also titled *Villa-Lobos*, contains several pictures and other illustrations, making this work a most interesting source.

Some journal articles are devoted to Villa-Lobos’ works, but very few are related to his piano works and the *Guia Prático*. Furthermore, they are usually not published in very well known journals, such as *The American Music Teacher* and *Clavier*. For example, in his article “Heitor Villa-Lobos,” Randall Bush presents a superficial overview of the composer’s main works with scant biographic and stylistic notes. Another article by Bush, “The Piano Works of Heitor Villa-Lobos,” offers a more complete overview than the previous article, giving more extended musical analysis of some piano pieces. Likewise, Laurence Morton’s article, “Villa-Lobos, Brazilian Pioneer,” deals specifically with the piano works in accordance with some of their pedagogical and stylistic elements. Finally, in the article “Interpreting the Music of Heitor Villa-Lobos,” Roberta Rust presents an analysis of the *Ciclo Brasileiro*, one of his most important piano works.
There are also a few theses and dissertations that deal with the piano works of Villa-Lobos and the *Guia Prático*. For example, Laurine Elkins’ dissertation “An Examination of Compositional Technique in Selected Works of Heitor Villa-Lobos” presents an extensive analysis of Villa-Lobos’ main piano works, focusing on melody, harmony, rhythm, use of ostinato patterns, form, pianistic writing, and programmatic and descriptive elements. Martha Marchena’s dissertation “An Analytical Study of Three Solo Piano Works by Heitor Villa-Lobos (1887-1959)” includes a thorough analysis of *Prole do Bébé N.1*, *Rudépoema* and *As Três Marias*. More importantly, it deals with the evolution of Villa-Lobos’ style, the influence of indigenous and ethnic culture, and his methodology of composition. In his thesis “The Uses of Folk Song in a Selected Group of Piano Compositions by Villa-Lobos and Bartok,” Robert Pennington analyzes the use of folk themes in the music of Villa-Lobos and Bartok. Besides studying the main elements of both Brazilian and Eastern European folk influences, Pennington includes a comparison between the two composers. Only one dissertation deals entirely with the *Guia Prático*: “*Guia Prático for Piano* by Villa-Lobos: Stylistic and Pedagogic Insights into Albums I, VII, and IX” by Susan Schroeder Cobb. In her dissertation, Cobb aims to acquaint the contemporary piano teacher with a repertoire reflecting Brazilian culture. This dissertation includes a stylistic analysis and pedagogic insights on the pieces contained in Albums I, VII, and IX of the *Guia Prático for Piano*.

The complete *Guia Prático for Piano* has been recorded only three times. The first recording was performed by Anna Stella Schic, a close friend of Villa-Lobos. Recorded in 1976 by the label *Solstice*, this is part of the first recording of his whole piano music series. In 1996, Sonia Rubinsky and *NAXOS* also released a collection of
Villa-Lobos’ piano music. Volume five of this collection contains Albums I to IX of the *Guia Prático for Piano*. Albums X and XII appear on a later release in this series. The most recent recording is by Clara Sverner, released under the Brazilian label *Biscoito Fino* in 2008. Other pianists, such as Louis de Moura Castro, Caro Pagano, and Joel Bello Soares have also included portions of the *Guia Prático for Piano* as part of a recording.

While all the literature discussed above will support this research, most of these resources do not offer specific guidance related to the complete *Guia Prático for Piano*. In addition, the performance of the pieces contained in this work has been neglected due to the lack of a revised edition. For the first time, a corrected edition of all eleven albums of the *Guia Prático for Piano* will be presented.

**Significance of the Problem**

This project aspires to contribute to the small amount of literature related to Villa-Lobos’ piano works. As a review of materials show, several articles and books have been written about Villa-Lobos, but they are mostly biographical. Few of them deal specifically with his piano works. Robert Pennington’s dissertation focuses on Villa-Lobos’ process of writing, and though this is highly important, it does not offer any criticism related to the performance of Villa-Lobos. Some dissertations and theses are related to the *Guia Prático for Piano*, but only explore some specific albums of this work. For example, Martha Marchena focuses on albums I, VII, and IX, offering a very complete analysis of the pieces contained in those albums. Additionally, Marchena includes important biographic and historic references to the *Guia Prático*. Unfortunately,
there is no document or publication that includes all the eleven albums of the *Guia Prático for Piano*. The available scores of selected books contain several editing mistakes and lack performance indications for the pianist. In addition, none of the scores available make reference to or include the text of the choral version.

The *Guia Prático for Piano* has a wide range of pedagogical possibilities and important performance challenges both for teachers and students. This project will offer an excellent teaching tool for those interested in exploring the music of Villa-Lobos and improving their piano technique. The repertoire of the *Guia Prático* can add variety to the repertoire of any pianist and be a great complement to more established collections by major composers.

**Significance of the Guia Practico for Piano**

**TEXTURE**

The textures in Villa-Lobos’s pieces range from simple melodies accompanied by simple harmonies to more complex arrangements. For example, the piece *Accordei de Madrugada* (which means Chords of the dawn) is not an overly complicated work, technically speaking. However, the 4 part texture is characterized by the use of separate rhythms in each part. The main theme is played using the thumb of the right hand, which is a challenge when dealing with voicing. The bass line, in a continuous quarter note figuration, interacts smoothly with the tenor line that provides rhythmic contrast (ex 1).
Example 1. *Accordei de Madrugada*, mm. 1-4.

The combination of rhythms, especially in the left hand, deserves careful attention. Villa-Lobos starts the piece in F major, but he changes to F minor in the B section creating a new atmosphere. During the entire piece, the upper part includes grace notes at the beginning of each measure that likely symbolize church bells in the early morning. The text of the folk song tells about a person who wakes up very early to sweep the church. During this time, he has a conversation with the Virgin Mary and other Saints!

In *Manquinha* (or Little Lame Girl) Villa-Lobos introduces a charming melody accompanied by simple harmonies in the middle register (ex. 2). In the middle section of the piece, he uses octaves in the lower register to expand the range (ex 3). The change from G major to B minor is accompanied by a change in the color and breadth of the texture.
Example 2. *Manquinha*, mm. 6-9.

*Machadinha* (or Little axe) also exemplifies this style or writing (ex. 4-5).

Example 4. *Machadinha*, mm. 4-6.

*Pobre Cega* (Poor blind woman) is a piece with a thin texture. The piece presents a mournful single melodic line. The melody is accompanied by chant-like octaves in the left hand that imitates the slow walking of the blind woman (ex 6).

*Laranjeira Pequenina* (or The Little Orange Tree) is built on an ostinato figure in the middle register. Combined with a playful, simple melody, this piece tells the story of a little girl who dreams about her future husband. Because of the close range of the writing, it is especially important to pay attention to balance; the ostinato figure should not overpower the other lines (ex. 7).
Example 7. *Laranjeira Pequenina*, mm. 6-8.

RHYTHM

Though all musical elements contribute to Villa-Lobos’s style, it is especially rhythm and melody that dominate his music. The rhythmic content is largely influenced by African culture. Although it is difficult to categorize all the influences, common characteristics can be found between African and South American music. One of the most important similarities is the use of meters that are binary and strongly syncopated. The distinctive Brazilian syncopation, often found in Brazilian dance music, is a clear example of that combination:

These rhythmic combinations are ubiquitous in Villa-Lobos’ output, a good example of which can be found in “O’ Pião” (ex. 8).
Example 8. *O’ Pião*, mm. 6-9.

*O’ Pião* (Mary-go-round) presents contrasting rhythmic sections. A pompous, march-like introduction is followed by the A section in which the syncopations, accents, and octaves resemble the joyful atmosphere of the town fair. The B section imitates the merry-go-round. For that purpose Villa-Lobos uses 3 staves: a pedal tone in the lower register and a continuous rhythmic figuration in the middle and upper register (ex. 9). This combination creates a layered texture that imitates some later Romantic or impressionistic writing.

*Rosa Amarela* (Yellow Rose) begins with a sensual introduction full of chromaticism. Following this introduction, a syncopated theme in thirds is introduced accompanied by a syncopated chord pattern in the left hand (ex. 10). This combination produces a lifting dance-like flavor.

Example 10. *Rosa Amarela*, mm. 5-8.

A very different kind of dance mood is presented in *Senhora Dona Viuva* (Miss Widow). This perpetual motion tarantela employs virtuosi passages that require careful attention to fingering and articulation. The rhythmic energy, present from beginning to end and highlighted with bursts of dissonances, creates a piece full of energy and vigor (ex. 11).

Example 11. *Senhora Dona Viuva*, mm. 1-5.
In *Maré Encheu* (The tide flowed) the A section presents a delightful melody with rich harmonies (ex. 12).

Example 12. *Maré Encheu*, mm. 5-8.

![Example 12. Maré Encheu, mm. 5-8.](image)

The contrasting B section is full of dance-like rhythmic vitality (ex. 13).

![Example 13. Maré Encheu, mm. 12-14.](image)

The combination of these contrasting sections presents a wide variety of musical and technical elements. This is ideal from a pedagogical point of view

**MELODY**

The music of Villa-Lobos is distinguished by its melodic inventiveness. Based on folk tunes, these melodic lines are primarily simple in contour and easy to remember. In
pieces like *Vestidinho Branco* (Little White Dress) (ex. 14), and *O’ Ciranda, O’ Cirandinha* (a circle dance) (ex. 15), Villa-Lobos presents melodies that move almost entirely by thirds and by step wise motion.

The accompaniment of both pieces is simple, using blocked or broken chords. However, Villa-Lobos uses different registers in the melody and/or tempo changes to create contrast in these pieces.

Many of the tunes contained in the *Guia Prático* are used by Villa-Lobos in other works and even in this same collection with a different arrangement. For example *Constante* (Faithful) (ex. 16) and *Condesa* (the Countess) (ex. 17) have the same melody.
Example 16. *Constance*, mm. 1-5.

```
Andantino quasi allegretto (M.M. 122 :)
```

Example 17. *Condesa*, mm. 1-3.

```
Andante
```

These two pieces are a clear example of different ways of arranging a melody. In the first piece, the left hand has an accompaniment in thirds, and the melody flows with 8\textsuperscript{th} and 16\textsuperscript{th} notes. In the second piece, the accompaniment begins with very simple harmonies that move mainly between tonic and dominant. Then, through several meter changes the texture becomes thicker and rhythmically more intense. The melody employs dotted rhythms with punctuated phrases groups, lending an entirely different character to this setting.

**TEXTS**

Each song of the *Guia Prático* was originally composed for choir. The texts of each piece describe short stories about childrens games, religious characters, and
childhood love, among other subjects. This reference to child related topics is a common characteristic in Villa-Lobos’ music. Besides reflecting the cultural context of Brazil, some of the texts in the *Guia Prático* have also a historical implication. For example, in *Garibaldi Foi a Missa* (Garibaldi went to Mass) the text makes reference to the Italian patriot and soldier Giuseppe Garibaldi, who went to Brazil and took up the cause of independence of a Brazilian province against the newly independent Brazilian nation. However, based on the text it is hard to tell whether or not Garibaldi was a popular hero. There is definitely some humor implied in the original verse.

**Garibaldi Foi À Missa**  
Garibaldi foi à missa  
No cavalo sem esporas;  
O cavalo tropeçou,  
Garibaldi lá ficou.  
Bis

**Garibaldi went to Mass**  
Garibaldi went to Mass  
on a horse without spurs;  
The horse tripped over,  
and Garibaldi was stuck.  
Bis

*Sinho de uma criança* (Child Dreams) is a beautiful and delicate piece in tempo di minuet; here Villa-lobos tells us about the innocent conversation between a child and his mother. She is telling her about the dream in which she visited her father in heaven.

**Sonho De Uma Creança**  
Mamãe, eu tenho um segredo  
Que vou contar amanhã,  
É lindo como são lindos  
Os olhos de minha irmã.  
É lindo como as folhinhas  
Da bela flor da romã,  
Mamãe, eu hoje não digo  
Mas eu direi amanhã

**Child’s Dream**  
Mommy, I have a secret  
which I will tell you tomorrow,  
it is as beautiful  
as my sister’s eyes.  
It is as beautiful as the little leaves  
as the beautiful pomegranate flower,  
Mommy, I will not tell you today  
but I will tell you tomorrow.
Sonho De Uma Criança

Contai-me, oh filha querida,
De contar não tenhas medo,
Eu prometo hei de guardar
O teu bonito segredo.

Mamãe, vóvó já me disse
Que os sonhos que a gente tem
Para tornar-se em verdade
Não se dizem a ninguem.

Pois bem, eu vou esperar,
Contrariada talvez,
Até que possas contar
O teu segredo outra vez;

--Mamãi, mamãi, dai-me agua,
Oh! meu Deus, que sêde eu
tenho!
Mamãi, que doce gostoso
Comi no céo, donde venho.

--Porque tu não me trouxeste
Ao menos uma fatia,
Doce que comeste
Dos anjos em companhia?

--Eu disse a Papai do Céo
Na terra não quero ir.
Ele sorrindo me disse:
Vai ver si mamã quer vir.

Child’s Dream

Tell me, oh dear daughter,
do not be afraid to tell me,
I promise I will keep
your beautiful secret.

Mommy, grandma told me
that the dreams we have
can become reality
if we don’t tell anyone.

So be it, I will wait,
displeased, maybe,
until you can tell me
your secret;

--Mommy, mommy, give me water,
Oh! God, I am so
thirsty!
Mommy, what a lovely sweet
I ate in heaven, where I come from.

--Why did you not bring me
at least a piece,
of the sweet you ate
in company of the angels?

--I told Father who is in Heaven
to earth I do not want to go.
He told me smiling:
go see if mommy wants to come.

In O Gato (The cat) Villa-lobos’ humorous personality is evident. This piece, dark
and mysterious, describes a person who threw a stick at a cat. The listener should listen
carefully to the last chord of the piece to hear the cat’s reaction!
**O Gato**

Atirei um pau no gato, to!
Mas o gato não morreu, reu, reu,
Nha Chica, ca admirou-se, se
Do berro que o gato deu.
Ah!

**The Cat**

I threw a stick at the cat,
but the cat did not die.
Miss Chica was surprised
at how much the cat screamed.
Ah!

*Na corda da viola* (On the string of a guitar) is a piece with a rhythmic theme and a wonderful middle section in a dance-like mood (ex 18). This work makes reference to Brazilian folk guitar writing.

CHAPTER THREE
REVISED AND EDITED VERSION OF THE GUIA PRÁTICO FOR PIANO BY
HEITOR VILLA-LOBOS

Methodology

When researching the Guia Prático by Heitor Villa-Lobos, I encountered many difficulties trying to obtain source materials. For this reason, I contacted Marcelo Rodolfo at the Villa-Lobos Museum in Rio de Janeiro, Brazil in an effort to gain access to the manuscripts of the piano version and obtain permission to use the scores. Rodolfo instructed me to contact Manoel Corrêa do Lago, who is currently publishing the choral version of the Guia Prático. He informed me that no piano scores of the Guia Prático are available, as the piano pieces were taken directly from the choral version. Based on this information, the main sources for this project are the existing choral version of the Guia Prático manuscripts and subsequent published version, as well as the current piano version of the Guia Prático. For the notes included in each piece I have used the following abbreviations:

Manuscript: MSC
Choral Version of Guia Prático: CV
Max Eschig Edition / Éditions Max Eschig: MEE
Mercury Music Edition: MME
With all the available scores, I began a comparison of each piece contained in the piano version. During this process, many questions arose regarding notation and editing arose. Therefore, in each piece I indicated the variants between scores. Some pieces have no variations from the original score but are included to complete the collection. The result is a revised and edited performance edition of the complete *Guia Prático for Piano*.

**Editorial Procedure**

The choral version of the *Guia Prático* contains homophonic songs, as well as songs for two and three voices. Some include a simple bass accompaniment that functions as harmonic support. In other cases, Villa-Lobos wrote an accompaniment either for piano or ensemble, although he did not specified the instrumentation. Villa-Lobos also wrote, based on some of the original songs, a different version for piano solo. During this process, he used articulation marks, especially the accent mark (>), to denote the melody line from the choral version (ex. 19a and 19b). However, Villa-Lobos is not consistent in this practice. In many works contained in the piano version, the articulation marks are missing in several sections. Other parts use different articulation markings, although the same melodic material is used. Although these marks may help the performer to clearly identify the melody, they can be misread as overly aggressive articulation marks, and the lack of consistent application can be confusing.
Example 19a, *Garibaldi Foi Á Misa*, choral version mm. 1-3.

Example 19b, *Garibaldi Foi Á Misa*, piano version mm. 1-4.

In many pieces, accents and staccatos are written above every note. This practice creates a rather busy score appearance. In this edition, repetitive articulations that occur throughout the piece have been eliminated. Two measures will indicate the type of articulation followed by “simile” (ex. 20).

Example 20, *Garibaldi Foi Á Misa*, mm. 5-8.
In many cases, Villa-Lobos combines two different kinds of articulation with the purpose of indicating the melody and an accent (ex. 21).

Example 21, *Sehora Dona Viuva*, mm. 1-5.

Articulation marks including staccatos and *sforzandos* (*sfz*) are used inconsistently. In many cases, Villa-Lobos combines, mixes, or interchanges these marks in subsequent occurrences of identical passages for no documented musical reason.

Villa-Lobos did not indicate his own pedal markings; however, he often used disconnected slurs on pedal tones. Therefore, these should be read as a suggestion for pedal or resonance (ex. 21).

For this edition, the editor has used a catalog system based on the album and piece numbers: Album 1, No. 1.

All editorial markings will appear in parentheses.

Each piece will include the texts from the *Guia Prático* along with their English translations. The texts from Albums 1 to 9 have been taken from NAXOS.¹

---

¹ Permission to include the texts was obtained from the label NAXOS for the purpose of this dissertation. Randall Foster, e-mail to author, May 12, 2009.

A MARE ENCHEU

A Maré Encheu

A maré encheu
A maré vasou
Os cabelos da morena
o riacho carregou.

Sete sete são quatorze
Três vez sete vinte um
Tenho sete namorados
Só faço caso de um.

Em cima daquela serra
Tem um velho gaioleiro
Quando vê moça solteira
Faz gaiola sem ponteiro.

The tide flowed

The tide flowed
the tide ebbed;
the hair of the beautiful brunette
were carried away by the brook.

Seven plus seven makes fourteen
three times seven, twenty-one
I have seven sweethearts,
but I care only for one.

At the top of that hill
there is an old man who makes birdcages;
when he sees a beautiful maiden
he even forgets to put in the perch.

H. VILLA-LOBOS
Rio, 1932

Album 4, No. 5

Ó Sim!

Oh Yes!

O papai e a mamãe a capelinha vão
Oh! Si. Oh! Sim
Si dinheiro não tiverem outros o terão.
Oh! Si. Oh! Sim.
Tralala tralala tralalalalalala
Tralala tralala tralalalalalala
Oh! Si. Oh! Sim.
Tralala, etc.

Daddy and Mommy go to the little church
Oh! Yes. Oh! Yes.
If they don’t have money, others surely do.
Oh! Yes. Oh! Yes.
Tralala tralala tralalalalalala
Tralala tralala tralalalalalala
Oh! Yes. Oh! Yes
Tralala, etc.

OS POMBINHOS

Album 5, No. 1

Os Pombinhos

Rola a pombinha
Lá no telhado,
Bis
Vem o pombinho
Põe-se de lado.
Bis

The Little Doves

The little she-dove coos
there in the roof,
Bis
There comes the little he-dove
to stay by her side.
Bis

Tempo de Mazurka \( \frac{1}{8} = 160 \)

1) m. 5, tempo change only in MEE
2) mm. 5-7, staccatos from CV.
3) m. 7, dynamic marks from MEE.
1) mm. 23-24, stacattos only in CV and MEE.
2) m. 23, dynamic mark from MEE
3) m. 25, tempo alteration from MEE.
VOCE DIZ QUE SABE TUDO

Album 5, No. 2

H. VILLA-LOBOS
Rio, 1932

Vous Diz Que Sabe Tudo

Voce diz que sabe tudo
Mas nao sabe namorar

Quero que voce diga, oh! lele!
Quantos peixes tem o mar.
Bis

Quantos peixes tem o mar!
Eu nao posso te dizer
Que o mar e muito grande, oh! lele!
Tenho medo de morrer.
Bis

1) 2/4 in CV.
2) mm. 3-7, articulations are inconsistent in MEE and CV.
3) mm. 5-4 omitted in CV.

You Say You Know Everything

You say you know everything
but you don’t know how to court

I want you to tell me, oh! lele!
how many fishes there are in the sea.
Bis

How many fishes there are in the sea!
I cannot tell you
’Cause the sea is too big, oh! lele!
I am afraid to die.
Bis

Modéré (♩ = 88)

Lento

O BASTÁO OU MIA GATO

Album 5, No. 4

H. VILLA-LOBOS
Rio, 1932

O Bastão ou Mia Gato

Nesta rua tem um bosque
Que se chama escuridão
Dentro dele mora um anjo
Que roubou meu coração.

Si eu roubei teu coração,
Tu roubaste o meu tambem;
Si eu roubei teu coração,
È porque te quero bem.

The Stick or Cat Miow

In this street there is a garden
That is called darkness
In it there is an angel
That stole my heart.

If I stole your heart
You stole mine too;
If I stole your heart,
It is because I love you.

Andante quasi Andantino \( \frac{\text{j}}{=54} \)

1) m. 2, accent omitted in MS and MEE.
2) m. 4, Ibid.
3) m. 4 Villa-Lobos wrote accents in all bass notes except in mm. 5-6.
O BASTÃO OU MIA GATO

1) m. 13, Villa-Lobos did not write the upper octave in this measure. However, it is included in the MEE.
2) m. 14, accent ommitted in the MS and CV.
O BASTÁO OU MIA GATO
**A CONDESSA**

**H. VILLA-LOBOS**

**Album 5, No. 5**

**A Condessa**

Oh! Condessa oh! Condessinha,
Oh! Condessa d’Aragão!

Bis

Venho pedir uma filha
De bonitas que ellas são.

Bis

Eu sou viuvinha,
Da parte d’além,
Quero casar
Não acho com quem;
Só contigo, só contigo, só contigo,
Meu bem.

(Cavalheiro)

Onde mora (la) Condessa
De lingua de França e dor de lanceta?

(Condessa)

Que quereis com la Condessa
De lingua de França e dor de lanceta?

Bis

Onde mora la Condessa
De lingua de França e dor de lanceta?

Bis

**The Countess**

Oh! Countess oh! little Countess,
Oh! Countess from Aragon!

Bis

I come to ask for the hand of one of your daughters
‘Cause they are so beautiful.

Bis

I am a little widow,
From far away,
I want to get married
I do not find a partner;
Only with you, only with you, only with you,
My darling.

(Gentlement)

Where does la Countess live
Who speaks French and has a lancet wound?

(Countess)

What do you want from la Countess
Who speaks French and has a lancet wound?

Bis

Where does la Countess live
Who speaks French and has a lancet wound?

Bis

SONHNO DE UMA CRIANÇA

Album 6, No. 1

H. VILLA-LOBOS
Rio, 1932

Sonho De Uma Criança

Mamãê, eu tenho um segredo
Que vou contar amanhã,
É lindo como são lindos
Os olhos de minha irmã.

É lindo como as folhinhas
Da bela flor da romã,
Mamãê, eu hoje não digo
Mas eu direi amanhã

Contai-me, oh filha querida,
De contar não tenhas medo,
Eu prometo hei de guardar
O teu bonito segredo.

Mamãê, vôvô já me disse
Que os sonhos que a gente tem
Para tornar-se em verdade
Não se dizem a ninguem.

Pois bem, eu vou esperar,
Contrariada talvez,
Até que possas contar
O teu segredo outra vez;

--Mamãê, mamãê, dai-me agua,
Oh! meu Deus, que sêde eu tenho!
Mamãê, que doce gostoso
Comi no céo, donde venho.

--Porque tu não me trouxeste
Ao menos uma fatia,
Do doce que comeste
Dos anjos em companhia?

--Eu disse a Papai do Céo
Na terra não quero ir.
Ele sorrindo me disse:
Vai ver se mamãê quer vir.

Child’s Dream

Mommy, I have a secret
which I will tell you tomorrow,
it is as beautiful
as my sister’s eyes.

It is as beautiful as the little leaves
as the beautiful pomegranate flower,
Mommy, I will not tell you today
but I will tell you tomorrow.

Tell me, oh dear daughter,
do not be afraid to tell me,
I promise I will keep
your beautiful secret.

Mommy, grandma told me
that the dreams we have
can become reality
if we don’t tell anyone.

So be it, I will wait,
displeased, maybe,
until you can tell me
your secret;

--Mommy, mommy, give me water,
Oh! God, I am so thirsty!
Mommy, what a lovely sweet
I ate in heaven, where I come from.

--Why did you not bring me
at least a piece,
of the sweet you ate
in company of the angels?

--I told Father who is in Heaven
to earth I do not want to go.
He told me smiling:
go see if mommy wants to come.

POBRE CÉGA

Album 8, No. 3

POBRE CÉGA

Minha mãe acorde
De tanto dormir...
Venha vêr um cego vida minha
Cantar e pedir.

Si ele canta e péde
Dá-lhe pão e vinho,
Mande o pobre cego vida minha
Seguir seu caminho!

Não quero teu pão
Nem também teu vinho,
Quero só que Aninha (vida minha),
Me ensine o caminho.

Ainda mais Aninha,
Mais um bocadinho,
Eu sou pobre cego (vida minha)
Não vejo o caminho.

Poor Blind One

Mother, wake up
from so much sleep...
Come see a blind man, my life,
singing and begging.

If he sings and begs
give him bread and wine
Tell the blind man, my life,
to be on his way!

I do not want your bread
and not your wine either
I only ask that Aninha (my life)
show me the way.

A little more, Aninha,
A little more,
I am a poor blind man (my life)
I cannot see the way.

O CIRANDA, O CIRANDINHA

H. VILLA-LOBOS

Rio, 1932

Andantino

1) m. 6-7, middle voice beamed over barline in CV and CMP.

Ó ciranda, Ó cirandinha

Oh ciranda, Oh cirandinha

(O ring-around-a-rosy)

Vamos todos cirandar;
Oh Ciranda, oh Cirandinha,
Uma volta, meia volta,
One round, half a round,
Volta e meia vamos dar.
let’s round one and a half times.

Ó Ciranda, ó Cirandinha,
Oh Ciranda, oh Cirandinha,
Vamos todos cirandar; 
let us all dance the ciranda;
Vamos ver a D. Luiza
Let’s go see Ms. Luiza
Que já está para casar
who is about to get married.

O anel que tu me deste,
The ring that you gave me,
Era vidro se quebrou;
was glass, and broke;
O amor que tu me tinhas
The love you had for me
Era pouco e se acabou.
was little and came to an end

Oh Ciranda, oh Cirandinha,
Uma volta, meia volta,
One round, half a round,
Volta e meia vamos dar.
let’s round one and a half times.

Ó Ciranda, ó Cirandinha,
Oh Ciranda, oh Cirandinha,
Vamos todos cirandar; 
let us all dance the ciranda;
Vamos ver a D. Luiza
Let’s go see Ms. Luiza
Que já está para casar
who is about to get married.

O anel que tu me deste,
The ring that you gave me,
Era vidro se quebrou;
was glass, and broke;
O amor que tu me tinhas
The love you had for me
Era pouco e se acabou.
was little and came to an end

A VELHA QUE TINHA NOVE FILHAS

H. VILLA-LOBOS
Rio, 1932

A Velha Que Tinha Nove Filhas

Era uma velha que tinha nove filhas
E todas faziam biscoito
Deu tangoronomango numa delas
E das nove ficaram oito.

E essas oito meu bem que ficaram
foram aprender francês
Deu tangoronomango numa delas
E das oito ficaram sete.

Bis

E essas sete meu bem que ficaram
Foram plantar batatas,
Deu tangoronomango numa delas
E das sete ficaram seis.

Bis

The Old Woman Who Had Nine Daughters

There was an old woman who had nine daughters
and all of them baked biscuits
One of them had a tangoronomango (a sudden attack)
and from nine, there were eight.

And these eight who remained, my darling,
began to learn French
One of them had a tangoronomango
and from eight, there were seven.

Bis

And these seven who remained, my darling,
started to plant potatoes
One of them had a tangoronomango
and from seven there were six.

Bis

Allegro non troppo

Em tempo absoluto

1) m. 3, beams overline bars in CV and CMP.
2) m. 5, staccatto omitted in CV and CMP.

NESTA RUA

Album 10, No. 3

H. VILLA-LOBOS
Rio, 1932

NESTA RUA

Nesta rua, nesta rua tem um bosque,
que se chama, que se chama solidão;
dentro dele, dentro dele mora um anjo
que roubou, que roubou meu coração.

Si eurobei, si eurobei teu coração,
tu tambem, tu tambem roubaste o meu;
Si eurobei, si eurobei teu coração,
e' porque, é porque te quero

ON THIS STREET

On this street, on this street there's a grove,
Which is called, which is called loneliness;
Inside it, inside it lives an angel,
Who stole, who stole my heart.

If I stole, if I stole your heart,
You too, you too stole mind,
If I stole, if I stole your heart,
It's because, it's because I want you.

FUI NO ITORORÓ

H. VILLA-LOBOS
Rio, 1932

Album 10, No. 4

FUI NO ITOROTÓ

Ponha aqui o seu pésinho
Bemjuntinho ao dé do meu
E depois não vá dizer
Que você se arrependeu.

Eu fui a Itoró
Beber agua e não achei.
encontrei bella morena,
que no Itoró deixei.

Aproveite minha gente
que uma noite não é nada
si não dormir agora
Dormirá de madrugada
Entrará na roda,
ficarásósinha,
sósinha não fico
nem hei de ficar
porque tenho Fulano
para ser meu par!

I WENT TO ITORORÓ

Put your tiny foot here,
Very close to mine,
And don't go saying later
That you regret it.

I went to Itoró
To drink water and didn't find any.
I found a beautiful brunette
Whom I left in Itoró.

Enjoy, people,
Because one night is nothing
If you don't sleep now
You'll sleep in the dead of night
You'll come into the playcircle,
You'll be alone,
Alone I don't [usually] stay
Nor will I stay [tonight, ever?] Because I have John Doe
To be my partner.

Vivo \( \frac{1}{4} = 132 \)

NO JARDIM CELESTIAL

Vamos no jardim celeste
Giroflê, ô giroflar;
para lá nos encontrar.

O que foram lá fazer?
Giroflê, ô giroflar;
para lá nos encontrar?

Colher muitas violetas,
Giroflê, ô giroflar;
Colher muitas violetas
e também nos encontrar.

P'ra que servem as violetas?
P'ra que servem as violetas?
para lá nos encontrar...

P'ra o'roar Nossa Senhora,
P'ra o'roar Nossa Senhora,
para lá nos encontrar.

Si encontrasse c'o a rainha,
Si encontrasse c'o a rainha,
para lá nos encontrar...

Eu daria os cumprimentos,
Eu daria os cumprimentos,
para lá nos encontrar.

Si encontrasse c'o Demonio,
Si encontrasse c'o Demonio,
para lá nos encontrar...

Mostraría minhas cruzes,
Mostraría minhas cruzes,
para lá nos encontrar.

IN THE HEAVENLY GARDEN

Let's go to the heavenly garden
Twirl, oh twirl;
Let's go to the heavenly garden
To meet [us] there.

What did [you] go do there?
Twirl, oh twirl;
What did [you] go do there,
To meet [us] there?

Gather many violets,
Twirl, oh twirl;
Gather many violets,
And also meet [us] there.

What are the violets for?
Twirl, oh twirl;
What are the violets for?
To meet [us] there...

To crown Our Lady,
Twirl, oh twirl;
To crown Our Lady,
To meet [us] there.

If I were to meet the queen,
Twirl, oh twirl;
If I were to meet the queen,
To meet [us] there.

I would give [my] regards,
Twirl, oh twirl;
I would give [my] regards,
To meet [us] there.

If I were to meet the Devil,
Twirl, oh twirl;
If I were to meet the Devil,
To meet [us] there…

I would show my crosses,
Twirl, oh twirl;
I would show my crosses,
To meet [us] there.

POBRE CEGA

Album 11, No. 3

H. VILLA-LOBOS
Rio, 1932

Pobre Céga

Minha mãe acorde
De tanto dormir...
Venha vêr um cego vida minha
Cantar e pedir.

Si ele canta e péde
Dá-lhe pão e vinho,
Mande o pobre cego vida minha
Seguir seu caminho!

Não quero teu pão
Nem também teu vinho,
Quero só que Aninha (vida minha),
Me ensine o caminho.

Ainda mais Aninha,
Mais um bocadinho,
Eu sou pobre cego (vida minha)
Não vejo o caminho.

Poor Blind One

Mother, wake up
from so much sleep...
Come see a blind man, my life,
singing and begging.

If he sings and begs
give him bread and wine
Tell the blind man, my life,
to be on his way!

I do not want your bread
and not your wine either
I only ask that Aninha (my life)
show me the way.

A little more, Aninha,
A little more,
I am a poor blind man (my life)
I cannot see the way.

Andante moderato \( \frac{3}{8} \) 80

CHAPTER FOUR

SUMMARY AND RECOMMENDED SUGGESTIONS FOR FURTHER STUDY

The *Guia Prático for Piano* includes a broad collection of elements which makes it unique. Villa-Lobos’ main purpose in writing this work was to educate the children of Brazil. He used a combination of folk-like tunes and childhood stories as a basis for these compositions; the end result being a varied work of piano pieces that reflects both the spirit of Villa-Lobos and his Brazilian soul.

Although many of Villa-Lobos’ piano works are well-known, the pieces contained in the *Guia Prático for Piano* are less performed. The main reason for this is the lack of available scores and the fact that the albums contained in the *Guia Prático for Piano* have been published separately. In addition, the available scores contain several mistakes and they make no reference to the choral version.

This revised and edited version of the *Guia Prático for Piano* aims at making this work accessible to both piano teachers and students. In this project, the eleven albums are included. In each piece, the text from the choral version was included with its translation to English. In addition to the updated score, the historical commentary and performance notes will facilitate a better understanding of the pieces.
The method used in creating this edition involved a careful comparison between the available manuscripts, the choral version, and the piano editions of the *Guia Prático*. Special attention was placed on note accuracy, dynamics, suggested tempi, phrasing, and articulations. The result is an updated and corrected version of the *Guia Prático for Piano*.

The material contained in this dissertation can also be used for future publications of the *Guia Prático for Piano*. A scholarly edition is necessary in order to offer both pianists and musicians in general a more accurate score of this work. Such publication will contribute greatly to the existing piano repertoire. At the same time, this performance edition offers a fine collection that will allow the developing pianist to improve their piano technique while exploring the music of Villa-Lobos.
