REPORT
of the
PRESIDENT

for the
Biennium
ending
June 30,
1963
To the Ball State University Board of Trustees
and Other Friends of Ball State University

This biennial report for 1963-65, the first for Ball State University, is the tenth in the series I began at the end of the 1945-47 biennium. Each of the preceding reports has recorded significant advances at Ball State Teachers College but perhaps none so far-reaching as those that will occur now that the institution is Ball State University.

At the University Recognition Day Program on February 12, 1965, I put it this way: "On February 8, 1965, Ball State University embarked upon a new era in the history of this institution—an era filled with challenges and opportunities, of hopes and aspirations, of commitments and dedication to new tasks that no other generation in this school has ever faced in just the same way."

Groundwork for the new era has been well laid by preceding generations. This report covers what has been done in 1963-65, but I would like to consider a few additional facts and figures here.

In September, 1963, student fees were raised, an unavoidable step after the 1963 Indiana General Assembly neglected—by $2,151,971—to fulfill the total appropriation requested by Ball State for current operations in the biennium. As of Autumn Quarter, 1963, the fee for Indiana residents became $285 and for nonresidents, $486.
Notwithstanding, this necessary increase did not deter students from seeking admission to Ball State. One year later, in September, 1964, enrollment passed the 10,000 figure! This may be considered evidence that students are attracted by Ball State's well-established programs, notably its excellent curricula in teacher education, and also by its more recent directions toward other professional fields and in the liberal arts.

The newest of the professional areas is architecture. The 1965 General Assembly approved the recommendation of the Legislative Advisory Study Committee to locate the only College of Architecture and Planning for the State of Indiana at Ball State.

Graduate programs continue to expand. On June 7, 1964—thirty years after granting its first master's degree—Ball State awarded its five-thousandth master's degree. On August 21, 1963, at Ball State's first summer commencement, two Ed.D. degrees, the first to be granted on Ball State's new doctoral programs, were awarded. On August 21, 1964, the first Ph.D. on the new doctoral programs was awarded.

Ball State also continues to widen its cultural horizons. In October, 1963, a five-year lease gave the Ball State Art Department the use of the E. B. Ball home on Minnetrista Boulevard as an art center, named the Bertha Crosley Ball Art Center for the late Mrs. E. B. Ball. In 1964 the annual Concert Series and the Muncie Symphony Orchestra opened in the new Emens College-Community Auditorium, as did the new Artist Series and Student Pop Series. From the auditorium's opening in March, 1964, to June 30, 1965, 122 programs were presented to a total estimated audience of 213,225.

Other biennial activities within Ball State University's four administrative areas—Instructional Affairs, Student Affairs, Public Affairs, and Business Affairs—are summarized in the report that follows.

Respectfully submitted,

John R. Emens, President

---

HOUSE ENROLLED ACT No. 1014

AN ACT to change the name of the State Teachers College Board, to change the name of Ball State Teachers College, at Muncie, Indiana; to continue the application of existing laws pertaining to the board and the institution, and to provide for the continuation of all existing powers and responsibilities of the board and institution, and declaring an emergency.

Be it enacted by the General Assembly of the State of Indiana:

SECTION 1. The name of the body corporate created by law and known and designated as the "State Teachers College Board" is hereby changed to "Ball State University Board of Trustees."

SEC. 2. The name of Ball State Teachers College, located and established at Muncie, Indiana, is hereby changed to "Ball State University."

SEC. 3. All powers, rights, privileges, duties and obligations, statutory, contractual, or of whatever kind, of the board and the institution shall remain in full force and unchanged, and all property and funds now held and used by them shall continue to be so held and used, notwithstanding the change of the name of the board and the institution, but henceforth under the designation of these new names. All laws, regulations, ordinances, deeds, contracts and other instruments of whatever kind now in effect concerning and referring to Indiana State Normal School and Indiana State Normal School Eastern Division and to the Board of Trustees of Indiana State Normal School and to Ball State Teachers College and the State Teachers College Board and to any public state normal school of the state, shall be deemed to refer to and apply to Ball State University and the Ball State University Board of Trustees with equal force and effect.

SEC. 4. Any provisions of existing laws in conflict with this act are hereby superseded by this act to the extent of such conflict only.

SEC. 5. Whereas an emergency exists for the immediate taking effect of this act, the same shall be in full force and effect from and after its passage.

John R. Emens
President of Senate

David C. Hendricks
Speaker of House of Representatives

Approved: January 5, 1965

George N. Wise
Governor of the State of Indiana
Instructional Affairs

The academic reorganization in 1961-63 made the structural transition from college to university this biennium relatively simple. Divisions became colleges, and new departments were created. (See organization chart.) Dr. Robert P. Bell became Dean of the new College of Business; Dr. Lloyd P. Nelson became Dean of the College of Fine and Applied Arts; Dr. Robert L. Carmin, Dean of the College of Sciences and Humanities; and Dr. Earl A. Johnson, Dean of the Teachers College. Mr. Charles M. Sappenfield, AIA, Asheville, North Carolina, was chosen to be Dean of the College of Architecture and Planning, Ball State University's fifth college.

Dr. O. T. Richardson returned to Ball State from Washington University to fill the post of Dean of Instructional Services vacated by Dr. Jerome Fallon who left to become Dean of the Junior College of Albany, New York.

Two new programs, a four-year professional nursing curriculum and a two-year printing technology curriculum, were approved and students were enrolled in them during the biennium. The program in nursing and its nursing courses were provisionally accredited by the Indiana State Board of Nurses' Registration and Nursing Education.

Exploration of varied educational procedures and resources was undertaken by faculty who recognized the utility of the large lecture room (English 114) and the opportunities afforded by closed-circuit television. The usefulness of television was extended by acquisition of a video-tape recorder. "Man and the Earth Sciences," taught by Mr. Edward E. Lyon, was the first television course to be taped for wide use.
In this biennium the book collection of the Ball State University Library passed the quarter million mark, totaling 283,419 volumes by June 30, 1965.

An international exchange between the Faculté des Lettres, University of Nancy, and Ball State University began in 1963 when André Creusot came to Ball State as the first native-speaking special graduate assistant. During the biennium two Ball State students, Kaaren Burke and Judy Beaver, were awarded Fulbright study grants to France.

Encouragement was given to the foreign language program by the installation of a modern language laboratory in the Burris Laboratory School and also by the establishment of an alliance with Instituto Tecnologico de Monterrey, Monterrey, Mexico, which made it possible for Mr. James Brown to take a group of students to Monterrey for a summer study program.

Typical of the extension of educational resources during the biennium was the decision to join the Social Science Consortium, based at the University of Michigan, which provides Ball State faculty and students access to a tremendous reservoir of social science data and specialized training in its use.

Illustrative of leadership activity by Ball State’s personnel during the biennium were the first statewide Conference on Honors held on the campus in October, 1963, to which representatives from all Indiana colleges and universities were invited, and the Ball State Assembly, cosponsored by the American Assembly, which brought to campus outstanding high school students to discuss significant national and international issues.

Among honors accruing to the university was the recognition from the American Association of Colleges for Teacher Education which ranked the work done by our faculty through the School Study Council projects as among the top ten outstanding contributions to excellence in teacher education.

The first regional meeting of the Association of State Colleges and Universities was held at Ball State January 10-12, 1965.

The deans of the teachers colleges of the four state universities developed the Cooperative Program in Teacher Education (CPTE) by which an in-service teacher may take, at especially designated centers, graduate work toward a master’s degree applicable at any one of the four universities.

Additional opportunities for academically talented students were pursued through the efforts of this area and Student Affairs, resulting in the university’s participation in the Advanced Placement Program sponsored by the College Entrance Examination Board.

**Faculty**

During the biennium 158 new faculty members were appointed; of these, 74 filled new positions. Of the 158 biennial total, 79 faculty appointments (including 33 for new positions) were made in 1963-64 and 79 (including 41 for new positions) in 1964-65.

During 1963-64 there were 40 leaves of absence; in 1964-65, there were 40.

Eighty-six faculty members were placed on tenure during 1963-64 and 1964-65.

**Title Changes**

Dr. Victor B. Lawhead, from Associate Dean to Dean of Undergraduate Programs; Dr. Robert H. Koeker, from Associate Dean to Dean of Graduate Programs; Dr. Robert H. Cooper, from Head of Department of Science to Coordinator of Sciences and Mathematics; Dr. John W. Hannaford, from Head of Department of Social Sciences to Coordinator of Social Sciences; Dr. Merrill C. Beyerl, from Dean of Students to Vice President for Student Affairs; Dr. Oliver C. Bumb, from Coordinator to Vice President for Public Affairs and University Development.

**Promotions**

**Instructor to Assistant Professor**
- Mrs. Audrey Collins, Library Science
- Mr. Charles H. Greenwood, Curricular Advising and Orientation
- Miss Margaret Ellen Lacey, Home Economics
- Miss Grace E. Laxson, Burris, Education
- Miss Mildred Milford, Music
- Mr. Frank Pershern, Industrial Arts
- Mr. Byron P. Shurtleff, Art

**Assistant Professor to Associate Professor**
- Dr. S. Gene Andrews, English
- Dr. John R. Craddock, Education; Extended Services
- Dr. William Dooley, Science

Retirement

Mr. A. L. Phillips, Associate Professor of Physical Education

Deceased

We regret to report the following deaths during this period: Dr. Robert Kyle, Business Education Department; Dr. John H. Neeley, part-time, Department of Mathematics; Dr. Harry Langman, formerly part-time, Department of Mathematics.

In addition to their academic responsibilities, faculty members make valuable contributions in their fields through research and writing and participate in professional organizations at the national and state levels. The following lists are representative only, and in no way definitive, of the activities in which faculty members were engaged during 1963-65.

Research and Writing

The following list is illustrative only since it is impossible to present a complete list.

Books

Mr. Edward E. Lyon, Dr. George F. Beatty, Dr. Lowell L. Dillon, and Mr. Rex Reynolds, Earth Science Programmed Text, published with Wm. C. Brown Co., 1965.

Mr. Charles R. Parish, Cardinal Numbers and Their Arithmetic; Rational Numbers and Their Arithmetic, published by Ball State University, 1964.

Dr. Bruce C. Shank and White, Teaching Typewriting, published by Weston Walsh Co., 1964.

Dr. Edwin L. Biggerstaff, Dr. Jay K. Church, Dr. Ann B. Lofcourt, Dr. Richard Knowles, Dr. Morton D. Dunham, Dr. David F. Richmond, Exploring Junior High School Guidance: An In-Service Approach, Interstate Printers and Publishers, Inc., 1965.

Miss Jean Landis and Yamisch, How to Improve Your Field Hockey, published by Athletic Institute, 1964.

Articles

Dr. Leo M. Hauptman, "Governor's Column," Hoosier Kiwanian, twelve issues, 1964.

Dr. Dario Politiella, "We Talk off the Top of Your Headlines," *The Collegiate Journalist*, 1964.

Dr. Helen J. Berry, "You Are Graduating," *The Indiana Nurse*, 1964.
Dr. B. K. Swartz, Jr., "Rock Art in the Navajo Reservoir District," *Archaeology*, 1964.

**National and State Professional Activity**

The following list is illustrative only, since it is impossible to present a complete list.

Mr. Pete J. Carr, member of four-man team receiving a government grant for research in the motivation of art teaching; first place award and honorable mention award in the Art for Religion Show in Indianapolis; purchase award in the Biennial DePauw Ceramics Show; AMACO award in the Indiana Crafts '65 Show at John Herron Art Museum.

Mr. Earl Dunn, conducted Ball State band at Presidential Inaugural Parade, Washington, D.C.; coordinator, Mid-America Music Camp; member, Executive Board, National Band Association; member, Educational Advisory Board, Lebland Corporation; staff speaker, Conn Corporation Sales School.

Mr. John Hinga, president, Indiana College Coaches Association; rules interpreter, Central Indiana Football Coaches and Officials.

Miss Ellen Lacey, secretary and chairman, Scholarship Committee of Indiana Home Economics Association; represented Ball State Department of Home Economics at Indiana State Fair Girls' School Dinner; participated in demonstration of foods at New York World's Fair.

Dr. Richard F. Momsen, consulting editor for chapters on Brazil, *Four Lands, Four Peoples*; attended International Geographical Congress in Liverpool and London; delivered two series of lectures to Peace Corps trainees.

Dr. Robert H. Cooper, member, Indiana Academy of Science Executive Committee; chairman Indiana Academy of Science Invitations Committee; chairman, Zoology Section of the Indiana Academy of Science; presented paper at Indiana Academy of Sciences.
The Musical Arts Quintet, composed of Mr. William Wittig, Mrs. Judith Pence, Mr. Rolf Legbandt, Mr. Homer Pence, and Mr. Robert Marsh, toured the Eastern states, performing in Carnegie Hall and at Brandeis University, Harvard University, and the Massachusetts Institute of Technology.

Dr. Maurice J. Ensh, chairman, Research Committee, Indiana Association for Supervision and Curriculum Development; Indiana's representative to National Board of Association for Supervision and Curriculum Development; secretary, Steering Committee for Indiana Teacher Education Workshop; curriculum consultant to Mishawaka Public School; member, Board of Indiana Association for Supervision and Curriculum Development.

Dr. W. W. Renke, consultant, Delaware Crippled Children's Society; member, Board of the Muncie Red Cross; and Mr. Robert Marsh, toured Washington, D.C.; and Mr. Robert Marsh, toured Washington, D.C., performing in Carnegie Hall and at Brandeis University, Harvard University, and the Massachusetts Institute of Technology.

Mr. Donald Showell, attends AAIIPER national convention; initiated first separate collegiate national volleyball tournament held in U.S.; edited and published the Midwest Intercollegiate Volleyball Association Newsletter; president, Midwest Intercollegiate Volleyball Association.

Dr. Frank Yuhus, comparative Education Study; History of Education Society; member, Divisional Committee on Foundations of Education; served on nominating committee of Ohio Valley Regional of the Philosophy of Education Society.

Community Service Faculty members also participated in numerous community activities—charitable, governmental, religious, and service—during the biennium. Several persons served the community in appointive and elective posts, others in professional advisory capacities, and still others by their continuing support of various community enterprises. The following list is presented as illustrative only and not as a complete account of faculty participation in community affairs.

Dr. Richard T. Alexander, elder and teacher of Men's Bible Class, First United Presbyterian Church; member, Board of Directors for Human Relations Council.

Dr. Benjamin F. Bast, lecture series on communism for WLBC radio station; panel discussion on censorship for WBST.

Dr. Arthur L. Eiser, member, Official Board and Commission of Education of Gethsemane Methodist Church; sponsor, local lodge of the Order of the Arrow, an honor Boy Scout and leader camper association.

Dr. Dwight W. Hoover, member, Mayor's Human Relations Committee.

Mrs. Shirley Newkirk, cataloging library at College Avenue Methodist Church.

Miss Alvertia F. Quesenberry, taught adult tailoring class at YWCA.

Dr. W. W. Renke, consultant, Delaware County Juvenile Court probation committee.

Dr. Esther L. Beck, member, Board of the Muncie Red Cross, as co-chairman of Ball State activities.

Mrs. Kay Clark, judge for a zone speech contest sponsored by the Optimist International.

Dr. Paty A. Dom, psychological diagnostic evaluations for public schools in neighboring communities.

Miss Mildred Eberle, member, organ committee and Workshop Commission, College Avenue Methodist Church; Community Cultural Enrichment Committee; judge, Junior Festivals Contest.

Dr. Rosemary B. Fisher, swimming teacher for program sponsored by Delaware Crippled Children's Society and American Red Cross; taught the American Red Cross Water Safety Instructor's Course as a Red Cross volunteer.

Dr. Ruth L. Myers, referral source to individuals needing psychological help, in the community, by telephone, in person, and to civic leaders in the community; also supported Council for Exceptional Children mental health and child guidance efforts.

Dr. William A. Sutton, Muncie City Councilman; County Chairman and Chairman of City Campaign Committees, Republican Party.

Grants During the biennium the following grants were received:

Dr. W. Ann Reynolds, Assistant Professor of Science, a continuation of the grant from the United States Department of Health, Education, and Welfare, National Institutes of Health, to study "The Effects of Low Temperatures on Amphibian Metamorphosis" for the 1963-64 and 1964-65 year.

Dr. Alan Huckleberry, Professor of Education and Director of Special Education and Clinics, a grant for workshops in the summers of 1963 and 1964 for "The Education of the Deaf" from the United States Department of Health, Education, and Welfare, Office of Education; and a grant for both the academic years 1963-64 and 1964-65 for the "Training of Teachers of the Deaf." Also a grant through Health, Education, and Welfare, Vocational Rehabilitation Administration, for a training program in rehabilitation of the deaf administered cooperatively by Dr. Huckleberry and Dr. William McClure, Superintendent of the Indiana School for the Deaf.

Dr. Anthony L. Tovatt, Professor of English, a grant through Health, Education, and Welfare, Office of Education, to conduct a three-year and eight-month program studying the "Oral-Aural-Visual Stimuli Approach to Teaching Written Composition to Ninth-Grade Students."

Dr. Robert Sherman, Associate Professor of Music, a grant through Health, Education, and Welfare, Office of Education, to support of a program entitled "Aural and Visual Perception of Melody in Tonal and Atonal Musical Environments."

Dr. Elizabeth Spencer, Assistant Professor of Education, a grant through Health, Education, and Welfare, Office of Education, for the preparation of professional personnel in the education of mentally retarded children.

Dr. Hildegarde Gordon, Assistant Professor of Education, through Health, Education, and Welfare, Office of Education, a stimulation grant for the study of the preparation of teachers of crippled or other health-impaired children.
Dr. Jerry J. Nisbet, Associate Professor of Science, continuing
grants for the summers of 1963 and 1964 through the National
Science Foundation for a “Summer Institute for Secondary School
Teachers of Biology.”

Matching grants through the National Science Foundation for
support of Undergraduate Scientific Equipment Programs by the
following:

Dr. Park Wiseman, Professor of Science, two grants for
chemistry equipment and library material;
Dr. Homer Paschall, Assistant Professor of Science, a grant
for biology equipment;
Dr. Earl McKinney, Head of Department and Professor of
Mathematics, a grant for mathematics equipment and library
materials;
Dr. John Hannaford, Head of Department and Professor of
Social Science, a grant for equipment and library materials in
the social sciences;
Dr. Russell E. Siverly, Associate Professor of Science, a grant
for support of an entomology study.

An institutional grant from the National Science Foundation
for undergraduate science education and research participation.

Dr. Donald Barnes, Associate Professor of Education, through
the American Library Association, a grant to conduct a library
demonstration project relating to the effective utilization of school
library resources.

Dr. Lawrence McClements, Assistant Professor of Physical
Education, a grant by the Indiana State Board of Health (through
Purdue University) to aid in the study of “Utilization of Motor
Aptitude Tests in Predicting Academic Achievement.”

Dr. Leslie Mauth, Head of Department of Education, Psy-
chology, and Special Education and Professor of Education, through
the Indiana Department of Mental Health, a grant for a 1964 sum-
ner program in the training of teachers of the mentally retarded.

Dr. Russell E. Siverly, Associate Professor of Science, a grant
from the Indiana Academy of Science for a basic study of the types of
mosquitoes occurring in Indiana.

Under the National Defense Education Act, Ball State was
awarded two additional graduate fellowships for the 1963-64 year
and two additional graduate fellowships for the 1964-65 year, each of
which was granted on a two-year basis.

A grant was received through the Price-Waterhouse Foundation
“To Aid Faculty Members or Students Studying in the Field of Ac-
counting” during the 1963-64 year. Awards have been made to Dr.
Helen Cloyd, Mr. James R. Barnhart, Mr. Joseph W. Jackson, and
Mr. Arnold J. Ounapu.

The McClintock awards were made to Dr. Frances Mayhew
Rippy to aid in the publishing of a book on Matthew Prior, and to
Dr. Ira Sharkansky for “An Imaginative Investigation into the Re-
lationship between Local, State and Federal Government.”

Grants from the Rotary Club of Muncie for School Drop-Out
Study were made during the biennium to Drs. Carson Bennett, Daryl
Dell, and Maurice Eash.

Dr. Jon S. Lawry, Associate Professor of English, received a
Fulbright Grant for a year's study in Greece.

Burris School  During the biennium pupil enrollment varied from
890 to 865 at Burris School, which continued to serve as a laboratory
for teacher education. Approximately 1,813 university students had
participation assignments during 1963-65.

Graduate Program  Graduate enrollment increased at a rate of
approximately 12 per cent each year of the biennium. Since 1946 the
graduate enrollment for each quarter and term has exceeded the
comparable quarter or term of the previous year.

As of August 20, 1965, Ball State had granted total graduate
degrees as follows: 27 doctors' degrees in elementary education and
social science education, 26 doctors' degrees in cooperation with In-
diana University and Purdue University, 12 specialist in education
degrees, and 6,334 masters' degrees.

Ball State's graduate programs were expanded during the
biennium so that by June, 1965, degree programs at the master's and
specialist's level were available as follows: the Master of Arts in
Education degree in elementary education and in 36 subject fields;
the Master of Arts degree in 38 subject fields; the Master of Science
degree in six fields of science and mathematics; the Master of Music
degree; and the Specialist in Education degree in nine fields of edu-
cation, industrial education, and social science.

Plans were initiated for five new areas of doctoral study in addition
to the programs established in 1961 leading to the degrees of
Doctor of Education and Doctor of Philosophy in the fields of
elementary education and social science education.

Extended Services  Community education received continued
emphasis during the biennium. Workshops were sponsored, as were
visits to established programs at Flint and at Harper Creek Com-
5
munity Schools, Battle Creek, Michigan. Financial and consultant
assistance was received from the Mott Foundation, Flint, Michigan.

Head Start training was conducted periodically as a result of pro-
grams under the Office of Economic Opportunity. Adult education
activities in literacy and services in the development of community
action programs were provided. Special short courses for adults showed growth, as did programs in business and industry. Contractual services for school surveys, psychological services, curriculum assessments and development, and week-end residential and other in-service programs also increased. A new study council, The Upper Wabash Valley School Study Council, was officially launched March 1, 1965. The accompanying table shows the significant over-all growth of Extended Services.

<table>

</table>

*In 1964-65 the Cooperative Program in Teacher Education yielded 72 enrollees, making the total student contact for the year 10,381.

Student Affairs

The several areas within the Office of Student Affairs continued in their dedication to the total development of each Ball State student as an individual and as an effective member of numerous groups. A new area, the Office of Professional Selection, was established in 1964 to administer the review of each student’s status near the completion of his second year and prior to his admission to a professional curriculum.

Registrar and Admissions. As an increasing number of applicants sought admission to the university, it was necessary to direct and deny admission to a larger number of students. The Committee on Admissions and Credits adopted an operational statement on February 11, 1965, permitting the Office of Admissions to direct the admission of applicants admitted with warning to the Winter and Spring Quarters.

The following figures reflect the increase in admissions activity during the biennium:

| UNDERGRADUATE ADMISSIONS FOR THE AUTUMN QUARTERS OF 1963-64 AND 1964-65* |
|-----------------|-----------------|-----------------|
| 1963 | 1964 | Percent Increase |
| Total Student Contacts | 14,245 | 23,891 | 67.7 |
| Undergraduate Applications distributed | 7,387 | 11,951 | 61.8 |
| Undergraduate Applications received for Autumn Quarter | 3,030 | 3,962 | 30.8 |
| Conditional Admissions granted for Autumn Quarter | 2,668 | 3,365 | 26.1 |
| Official Admissions granted for Autumn Quarter | 2,498 | 3,127 | 25.2 |
| New Student Registrations for Autumn Quarter | 2,190 | 2,854 | 30.3 |

*For the purpose of reporting statistics the Office of Admissions uses a period of time referred to as a functional year (September 1 - August 30); the statistical summaries cover this period of time for the years indicated.

Enrollment figures for the Autumn Quarter and the First Summer Term of each year of the biennium were as follows:

| ENROLLMENT FOR AUTUMN QUARTER AND FIRST SUMMER TERM, 1963-64 AND 1964-65 |
|-----------------|-----------------|-----------------|
| 1963-64 | 1964-65 |
| Freshman | 2957 | 171 | 158* | 171 | 1990 | 453 |
| Sophomore | 1868 | 428 | 428 | 428 | 1990 | 453 |
| Junior | 1329 | 563 | 563 | 563 | 1370 | 623 |
| Senior | 1087 | 804 | 804 | 804 | 1172 | 804 |
| Post Graduate | 51 | 149 | 149 | 149 | 61 | 153 |
| Special | 49 | 130 | 130 | 130 | 68 | 130 |
| Graduate | 1284 | 1869 | 1869 | 1869 | 1421 | 2065 |
| Graduate Special | 115 | 250 | 250 | 250 | 178 | 291 |
| Auditors | 74 | 33 | 33 | 33 | 40 | 47 |
| Special Applied | 317 | 155 | 155 | 155 | 281 | 167 |
| Total | 9131 | 4562 | 4562 | 4562 | 10347 | 4939 |

*Summer Quarter
Student Housing  The opening of Studebaker-West Halls in September, 1964, provided housing for 924 men and women and four professional staff members and increased the number of university residence halls to nineteen. The opening of Studebaker-East Halls, also completed in this biennium, was scheduled for September, 1965. Plans were completed and construction was begun on LaFollette Halls, a residence hall complex for both graduate and undergraduate students. In the summer of 1965 an additional 45 units were opened in the Anthony Apartments, which now total 131 units.

Student Financial Aids  On-campus student employment increased from 2,596 jobs in 1963-64 to 2,832 jobs in 1964-65, plus the federally supported Work-Study Program which became functional in February, 1965. In the 1963-64 year, 592 National Defense Loans were awarded for a total of $306,850; in the 1964-65 year, 934 National Defense Loans were awarded for a total of $476,449. Scholarships are tabulated below.

The Amelia T. Wood Health Center, dedicated February 29, 1964, bears the name of the doctor who served as Ball State's health service director from 1931 to 1955.
Counseling and Psychological Services  In 1963-64 over 2,700 counseling hours in the Counseling and Psychological Services Center were devoted to individual student interviews. In 1964-65 approximately 2,881 counseling interviews were held with students. In addition to the major emphasis on counseling and psychological services for students, this area continued to provide testing, consulting, and research services for the faculty and staff.

Health Services  The Amelia T. Wood Health Center, providing space for examination, diagnosis, and treatment, and thirty-six beds for patients, was first occupied by the Health Service in February, 1964. The various health services extended to students during the biennium were as follows:

<table>
<thead>
<tr>

Student Activities  The Office of Student Programs served as a center for coordinating the 168 recognized student organizations on campus and as adviser for governing bodies, committees, and other student groups. The number of participants in the two-day orientation program for new students and their parents increased each year. During the summer of 1964 approximately 2,800 students and 2,000 parents participated. Approximate attendance for later orientation programs in 1964-65 was as follows: Winter Quarter, 188 students and 60 parents; Spring Quarter, 163 students and 45 parents; and Summer Quarter, 196 students and 115 parents.

Religious Activities  The Office of Religious Programs continued in its sponsorship of the cooperative program of religious activities of the 25 on-campus student religious organizations related to 27 denominations. Maintaining cooperative relationships with local and national religious groups, participating in the Council of Religious Advisors, and sponsoring the Student Religious Council were among the continuing activities of this office.

International Students  In 1963-64, 43 international students from 23 countries were enrolled in undergraduate and graduate programs; in 1964-65, 48 students from 24 countries were enrolled. In the latter year the Test of English as a Foreign Language (TOEFL) was used for the first time. During the biennium eight international students were awarded the baccalaureate degree; six, the master's degree; two, the specialist in education degree; and two, the doctoral degree.

Placement Bureau  In the 1963-64 year, 26,115 requests for Ball State graduates were received; in the 1964-65 year, 30,953. The most notable change in requests has been the increase in college-level opportunities; 2,268 such requests were received in 1964-65 in comparison with only 998 in 1963-64.

Public Affairs and Development

Through its various services the Office of Public Affairs and Development reflects activities within the other areas of the university. Designing campus buildings for increased numbers of students, presenting the news of all facets of Ball State to its many publics, planning annual and special giving programs, anticipating future campus traffic patterns—these were some of this area's myriad concerns during the biennium.

Development (Campus Planning)  Ball State was engaged in various stages of planning for the following campus facilities: Student-East Halls (construction started October, 1963), Anthony Apartments—Unit III (construction started October, 1964, and was completed June, 1965), LaFollette Residence Halls (construction started December, 1964), Physical Science-Mathematics Building—Unit I of the Science Complex (construction started June, 1965), Education and General Classroom Building, Library remodeling, swimming pools, physical education facilities at Benadum Acres, and the Nursing Education Building—Unit II of the Science Complex.

The new auditorium, officially named the John R. Emens College-Community Auditorium at the Homecoming alumni luncheon in 1963, was completed in 1964. Even before construction was finished,
Top: The John R. Emens Auditorium is now a campus landmark which students pass daily on their way to class.

Bottom: Auditorium patrons in the spacious lobby preceding the special Fred Waring program, March, 1964.

Top: President Emens changes signs at University Recognition Day program in auditorium February 12, 1965, as State Senator Rodney Piper and Representatives George Stephenson and David Metzger watch. Bottom: Interior view of auditorium shows part of audience as well as scalloped ceiling and variable acoustical control panels in wall.
however, free concerts by Fred Waring and His Pennsylvanians were presented on March 14 and 15, 1964, for all who had contributed to the auditorium. Formal dedication occurred October 25, 1964.

Other buildings dedicated during the biennium were the Physical Education Building for Men and Field Sports Building, October 30, 1963; the Amelia T. Wood Health Center, February 29, 1964; and the Mark E. Studebaker Halls (Floy Ruth Painter Hall, Ethelyn Davidson Hall, Claude E. Palmer Hall, and L. H. Whitcraft Hall), November 6, 1964.

Development (Fund Raising) Voluntary support proposals were continued and augmented during the biennium. In 1964 the President’s Club was established through the efforts of the Alumni Office. A short-term fund drive successfully financed the Ball State Marching Band’s trip to perform in the parade at the inauguration of President Lyndon B. Johnson and also left a balance for the University Scholarship Fund.

Public Information Services  The Office of Public Information Services, encompassing the News Bureau, Publications Office, Photo Service, and Display Service, markedly increased its activities to meet the new needs of university status. Reports for legislative committees, comprehensive fact sheets, a dedication booklet for the auditorium, informational pieces for national publications, a quarterly newsletter for parents and alumni, a Creative Arts calendar, and special articles became frequent services of the News Bureau in addition to regular news releases and in-depth reporting. The News Bureau wrote 49 special feature stories and furnished 85 pictures for two 44-page commemorative issues distributed on Ball State Appreciation Day, April 1, 1965, by the Muncie Press and the Muncie Star.

The increased services of the News Bureau were reflected in increased output by Photo Service, an area used by more and more academic departments needing slides, color photos, and illustrative charts.

The Display Service also served a greater number of areas during the biennium. Theme of the 1963 mobile exhibit prepared by Display Service was “Sounds of Ball State” and of the 1964 exhibit, “Profile of a Dynamic College.”

The Publications Office more than doubled its output of official publications this biennium over last—282 in 1963-65 in contrast to 131 in 1961-63. Introducing Ball State became an annual university bulletin addressed to prospective students. Health Service for Students, Living Off Campus, and Direct Route to Residence Hall Living were among the new publications prepared for student use. Programs for the Concert Series and Artist Series as well as some other auditorium events were designed and prepared in the Publications Office. Two numbers in the Ball State Faculty Monograph Series—Roots of the Ukiyo-e by Mr. Ronald Penkoff, Assistant Professor of Art, and Algeria and France by Dr. Jacques Goutor, Assistant Professor of Social Science, were published in 1964-65. Announcements describing the NDEA summer institutes for 1965, a folder detailing the new Nursing Curriculum, a booklet for Religious Emphasis Week, and Stage in Miniature (brochure, study guide, and script) for Library Film Service further illustrate the diversity of new publications and areas served during the biennium.

Alumni Relations  The number of alumni for whom the Alumni Office maintains current information topped the 25,000 mark in 1964-65. The executive committee of the Alumni Association provided 9 alumni scholarships and authorized 12 alumni merit scholarships in each year of the biennium. In addition, 11 students benefited each year from faculty memorial scholarship programs initiated and/or supported by alumni contributions.

In 1964 approximately 2,000 textbooks were provided for distribution to the Peace Corps; 800 were sent to the Books for Asian Students organization; 1,000 to Alaska; and 1,500 to Anderson College for distribution to libraries in new Negro colleges in the South.

Conferences In 1963-64 over 19,000 people attended 63 conferences on campus, and in 1964-65 approximately 24,000 people attended 85 conferences. Summer conference activity expanded rapidly as evidenced by two weeks in June, 1965, when Ball State hosted 1,700 conference guests—more than during the entire summer of 1964.

Traffic, Safety, and Security  Automobile registration, enforcement of vehicle regulations, traffic control, and security measures continued to be major services to students, faculty, and staff. As the completion of the Physical Education Building for Men and the Emens Auditorium made possible the scheduling of more events on campus, the Office of Traffic, Safety, and Security also increased its services to Ball State patrons.

Art Gallery  Each year the works of approximately six hundred American artists were entered in the university’s annual Drawing and Small Sculpture Show—the tenth in 1964, the eleventh in 1965. Ball State’s Traveling Exhibit, comprised of selected drawings from past
Drawing and Small Sculpture Shows, visited several other universities, colleges, and museums.

Arts of Japan, Young Collectors Prints, and Indiana Artist-Craftsmen were among the many special exhibits in the Art Gallery, which was also the setting for numerous tours and talks, panel discussions, and receptions for visiting artists. Raymond Rocklin in June, 1964, and Henry C. Pearson in June, 1965, were the visiting artists for the annual summer Arts Festival.

Business Affairs

A brief résumé of the financial activity of Ball State University for the two-year period which ended June 30, 1965, is presented here. The annual financial report compiled by the Office of the Vice President for Business Affairs and Treasurer gives more detailed information on the financial operations of the university.

Current Operations

General Fund The Current Operations General Fund budget includes instructional departments, administration, public services, and general expenses of the university. Receipts and disbursements for the two years are summarized as follows:

<table>
<thead>
<tr>
<th>RECEIPTS</th>

</tbody>
</table>

Self-liquidating Enterprises The operations of the university's residence halls, dining services, and student union facilities grossed approximately $9,961,000, the proceeds of which were utilized for paying current expenses of these enterprises, providing additional similar facilities necessary for the future growth of the university, and retiring bonded indebtedness.*

Capital Outlay and Rehabilitation

State Funds The Indiana General Assembly granted an appropriation of $3,652,400 for construction and rehabilitation during the 1963-65 biennium. This amount was allocated to the following projects:

- Electric Power System Addition $86,952
- Physical Science-Mathematics Building 2,800,000 (partial cost)
- Service and Stores Addition 499,808
- Library Expansion 266,640 (partial cost)

All of the above projects were under construction at the close of the biennium except the Library Expansion.† The total estimated cost of the Physical Science-Mathematics Building is $4,076,000 with the difference being financed through grants under Title I and II of the Higher Education Facilities Act of 1963 and from NDEA Title III funds.

Bids for the conversion of the Assembly Hall (the middle unit of the entire Library complex) for library purposes including multi-floor stack areas will be received in the fall of 1965.† This project, estimated to cost approximately $1,000,000, will be financed through the funds indicated above from the 1963-65 State capital outlay appropriation, from grants under Title I and Title II of the Higher Education Facilities Act of 1963, plus an additional allocation from the 1965-67 State capital outlay appropriation.

Self-liquidating Projects Studebaker-East Halls, to be opened in the fall of 1965, will house 444 women. The building, with an approximate cost of $2,200,000, is being financed through a bond issue and auxiliary earnings.

Anthony Married Students Apartments Three were ready for occupancy just at the close of the biennium. Composed of 45 units, the total approximate cost is $582,752.

LaFollette Halls, a complex to house 1,940 men and women students and 9 resident directors, is under construction. The first two

*During the biennium the university paid $2,133,054.96 in principal and interest on its bonded indebtedness, which totaled $22,683,000 as of June 30, 1966.
† Bids were let December 15, 1965.
units are to be ready for occupancy in the fall of 1966. The entire structure has a total approximate cost of $11,079,248 and is being financed by a loan through the Housing and Home Finance Agency, sale of bonds through private purchase, and auxiliary earnings.

Using funds derived from auxiliary enterprises, student fees, and other earned income, properties were purchased during the biennium at a total investment of $375,048. These properties are either contiguous to land already owned or in the immediate vicinity, making the acquisition desirable from the standpoint of long-range planning. At the close of the biennium, the total campus holdings amounted to more than 477 acres.

**Gifts and Grants** Gifts and grants to the Ball State University Foundation and/or directly to the university for the biennium totaled $991,853, which included the following:

- Grants from the National Science Foundation for summer institutes in biology for secondary school teachers; for matching grants under the undergraduate scientific equipment programs in chemistry, biology, mathematics, social sciences, and entomology $171,930

Robert La Follette Residence Halls—architect’s sketch. Graduate unit is named for Levi S. Shively; undergraduate halls for Margaret Brayton, Lucile Knotts, Lucia Mysch, Grace Woody, Gola H. Clevenger, P. D. Edwards, Lawrence Hurst, and John M. Shales.
Through the United States Department of Health, Education and Welfare, grants for a summer counseling and guidance training institute for secondary school counselors; for workshops in the education of the deaf, training of teachers of the deaf, and rehabilitation of the deaf; for conducting a program in the oral-aural-visual stimuli approach to teaching written composition; for studying effects of low temperatures on amphibian metamorphosis; for support of a program in aural and visual perception of melody in tonal and atonal musical environments; for preparation of professional personnel in the education of mentally retarded and health-impaired children; for NDEA graduate fellowships; and for the Federal work-study program, a total of $406,926.

Gifts for the many scholarship programs and grants-in-aid to students $231,248.

Continuing gifts during the biennium were sponsored by Miss Eleanor Smith for the Sue Derexa Smith Memorial Concert and the Marie Smith Gray Memorial Lecture; a payment of $2,565 to the Kirkpatrick Memorial Fund for Gerontology; contributions from the Ball Brothers Foundation and from the George and Frances Ball Foundation for the United Student Aid Fund, for elementary scholarships, and to aid in professional travel of faculty members, totaling $13,750; a total payment of $7,200 by Psi Iota Xi sorority for summer speech correction and hearing therapy clinics; through the American Library Association a grant to conduct a project on utilization of school library resources for $8,109; from the Indiana Department of Mental Health, a grant for conducting a summer program in the training of teachers of the mentally retarded and a ten-county survey on the mentally retarded, the sum of $13,000. In the grand total shown are many other gifts received from individuals and organizations or firms for the purpose of furthering the educational processes of Ball State University.

Ball State University Foundation was organized for the primary purpose of administering bequests made to the university in ways best suited to its welfare. Its charter, issued by the State of Indiana, is perpetual. For wills, the legal title of the corporation is “Ball State University Foundation, a corporation, Muncie, Indiana.”
