the president's biennial report
ball state university
1965-67
Members of the Ball State University Board of Trustees

President
A. M. Bracken, Muncie

Vice President
Kenneth D. Osborn, La Porte

Secretary
Floyd A. Hines, Connersville

Assistant Secretary
Thelma Ballard, Marion

State Superintendent
William E. Wilson, Indianapolis
(ex officio) to March 15, 1967

of Schools
Richard D. Wells, Indianapolis
(ex officio)

Consulting Treasurer
Frank B. Bernard, Muncie

Ball State University

President
John R. Emens, Muncie

Ball State University

To the Ball State University Board of Trustees
and Other Friends of Ball State University

This biennial report describes briefly the achievements of Ball State University during its first two years as a university. It also reflects the achievements of preceding years during which the foundations for the present growth and development were being laid.

In September, 1965, the planned academic reorganization detailed in my last biennial report became effective. Instead of fourteen departments, there were twenty-nine departments and divisions in five colleges.

Within a year radio and television facilities were expanded into the Center for Radio and Television to combine the developing academic program with existing production centers serving both campus and community. By means of closed-circuit television the center can provide televised courses and information to strategically located classroom buildings. Plans were also initiated to become part of the Indiana State Telecommunications Network involving the four state universities in an exchange of campus resources.

The new College of Architecture and Planning welcomed its first class in September, 1966. That same year students in the Department of Nursing began their third year of study. Departments with long-established programs added new majors and minors in several fields to
meet the demands of expanding enrollment. Five new doctoral programs received preliminary approval. Additional grants were received—for construction, for the library, for institutes, for research. The Ball State University Computer Data Processing Center was reorganized to expand its potential to serve the needs of instruction, research, and administration.

At the June 5, 1966, Commencement Ball State University granted its 25,000th degree. That Commencement also marked a break with the past necessitated by the ever increasing number of graduates; for the first time the names of students receiving baccalaureate degrees were not read.

The increasing number of students has meant more construction—of both residence halls and classroom buildings—and it has meant continued planning. All areas prepared ten-year projections of needs for the use of the University Long-Range Planning Committee and of Perkins and Will of Chicago, professional planning consultants retained by the university. Library consultants also visited the campus during the biennium to recommend appropriate expansion of the University Library for the years ahead.

As in the past, more faculty and staff were added each year of the biennium. Two changes will be noted here: The retirement of Dr. Earl A. Johnson in June, 1966, after 37 years of service to Ball State University, and the resignation of Dr. John E. Visser in February, 1967, to accept the position of President of Kansas State Teachers College at Emporia. Dr. John Dunworth succeeded Dr. Johnson as Dean of Teachers College. Dr. Richard H. Caldemeyer replaced Dr. Visser as Assistant to the President.

The report that follows summarizes with facts and figures the major activities of the four administrative areas of Ball State University during the 1965-67 biennium.

Respectfully submitted,

John R. Emens, President
To commemorate the emergence of Ball State as a university in February, 1965, and to stimulate consideration of the larger responsibility implied by this title, a special two-day convocation entitled *Threshold—Ideas for a New University* was held at the beginning of the academic year in September, 1965. The event was a successful introduction to the 1965-67 biennium.

**Accreditation** Many activities of the instructional affairs area during the biennium pertained to accreditation. Following the preparation of a report of progress in teacher education during the summer of 1966, a representative from the National Commission for Accreditation of Teacher Education visited the campus in December, 1966. A favorable decision renewing NCATE accreditation was received in May, 1967.

Representatives of the North Central Association of Colleges and Secondary Schools, which had granted preliminary approval to Ball State for doctoral programs in elementary education and social science teacher education on June 27, 1961, revisited the university in 1965-66 to review these programs and to consider the request of Ball State University to establish additional doctoral programs in art education, English education, science education, guidance and counseling, and educational administration. Full accreditation was granted for the Ed.D. degree in elementary education and social science education, and preliminary accreditation was renewed for the Ph.D. degree in elementary education and social science education and granted for the Ed.D. degree in the five other fields requested. Dr. George Starcher, President of the University of North Dakota, was named NCA consultant on doctoral programs to Ball State University and visited the campus twice during 1967.

**New Programs and Procedures** A basic revision of undergraduate curricula approved in 1966 to become effective September, 1967, rearranged all academic programs into one of four categories: Teacher Education Curriculum, Liberal Arts Curriculum, General Arts Curriculum, and Professional Arts Curriculum. Each major or minor now offered by the university is classified under one of the four curricula. During the biennium, 36 new undergraduate majors and minors were added to the programs of the university. There were 102 new courses added in 1965-66; 159, in 1966-67.
The Ball State Library changed from the Dewey Decimal system of classification to the Library of Congress classification schedules. In June, 1967, the Library added its 300,000th book.

Among the innovations to improve instruction and to accommodate larger numbers of students was the audio-tutorial laboratory established in biology; this program combines the virtues of large lecture procedures with those of independent study. Large lectures and closed-circuit television continue to be utilized in several areas.

A program of creative teaching grants for faculty, comparable to the program of faculty research grants, was established during the biennium. A program of quarterly faculty lectures was also begun in Autumn Quarter, 1965.

Regional Coordination To improve the coordination of higher education in Indiana, Ball State University became a member of the Regional Campus Coordinating Committee, along with Indiana University, Purdue University, and Indiana State University. The intent of the committee is to review new campuses and new programs before they are located in Indiana.

Recognition For the second time Ball State University was awarded a certificate of merit by the American Association of Colleges for Teacher Education. These awards are given annually to ten institutions for significant programs in teacher education. The award received in February, 1967, was based on the work of Dr. Anthony L. Tovatt in the teaching of English.

Ball State University was selected as one of twelve institutions whose liberal arts programs were studied in a Carnegie Foundation project on the future of the liberal arts college.

In November, 1965, Ball State was visited by the Special Study Committee on Medical Education created by the Legislative Advisory Commission upon the direction of the 1965 Indiana General Assembly. The special committee recommended Ball State University as the appropriate site for a second medical school in Indiana. However, no action was taken by the Indiana General Assembly during the biennium.

Faculty During the biennium 234 new faculty members were appointed; of these, 95 filled new positions. Of the 234 biennial total, 101 faculty appointments (including 42 for new positions) were made in 1965-66 and 133 (including 63¼ for new positions) in 1966-67.

During 1965-66 there were 46 leaves of absence; in 1966-67, there were 50. Sixty-five faculty members were placed on tenure during the biennium.

Promotions

Instructor to Assistant Professor
- Miss Hallie Conrad (Curricular Advising)
- Mr. James K. Danglade (Curricular Advising)
- Mr. Ernest G. Hawes, Library Science
- Miss Mozelle Jackson (Student Affairs)
- Mr. Joseph C. Mumpower (Student Affairs)
- Mr. Charles Parish, Mathematics
- Mrs. Marjorie Story, Art
- Mr. William Wittig, Music

Assistant Professor to Special Assistant Professor
- Mrs. Nada Gadbury (Burris), Education
- Miss Mary Elizabeth Wood (Burris), Foreign Language

Assistant Professor to Associate Professor
- Dr. Bert Anson, History
- Dr. Mildred Ballou, Education
- Dr. Philip Ballou, Education
- Dr. Esther L. Beck, Business Education and Office Administration
- Dr. John A. Beekman, Mathematics
- Dr. Kenneth H. Bergman, Industrial Education and Technology
- Dr. Peter D. Cacavas, Psychology
- Dr. William S. Casey, Music
- Dr. Jack E. Cousins, Education and Sociology
- Dr. Edwin C. Cruig, Physics
- Dr. Duane Diedrich, Speech
- Dr. Gerald E. Doeden, Chemistry
- Dr. Louise Gates, Psychology
- Dr. Whitney Gordon, Sociology
- Dr. Ned H. Griner, Art
- Dr. Raymond E. Henzlik, Physiology and Health Science
- Dr. Richard A. Hoops, Special Education and Speech
- Dr. Robert S. Huston, History
- Dr. John Mark Johns, General Business Administration
- Dr. Donald W. Jones, Education
- Dr. Henry E. Kane, Geology
- Dr. Carl H. Keener (Burris), Social Science
- Dr. Claudia McConnell, Psychology
- Dr. James H. McElhinney, Education
- Dr. William H. Middleton, Industrial Education and Technology
- Dr. Ebert L. Miller, Psychology
- Dr. H. Kenneth Nixon, English
- Dr. E. John Pole, Education
- Dr. Thomas A. Ray (Curricular Advising)
- Dr. Jake Reams, Industrial Education and Technology
- Dr. John Reno, Physical Education
- Dr. Leon M. Reynolds, Physics
Dr. Claude Rieth, Industrial Education and Technology
Dr. Morton M. Rosenberg, History
Dr. Janet Ross, English
Dr. Shelby Smith (Burris), Mathematics
Dr. Jack F. Snyder, Education
Dr. Elizabeth Spencer, Special Education
Dr. Newton Sprague, Physics
Dr. Althea Stoeckel, History
Dr. Robert J. Synovitz, Physiology and Health Science
Dr. Harry Hall Taylor, English
Dr. Winfred J. Wagoner, General Business Administration
Dr. Charles D. Wise, Biology
Dr. George Yeamans, Library Science

Associate Professor to Professor
Dr. Donald L. Barnes, Education
Dr. George F. Beatty, Geography
Dr. John C. Cooley (Burris), Music
Dr. Dorothy E. Crunk, Business Education and Office Administration
Dr. Martha F. Hill, General Business Administration
Dr. Robert E. Hill, Jr., Psychology
Dr. Robert R. Jost, Economics
Dr. Jon S. Lawry, English
Dr. James C. List, Biology
Dr. P. M. Mayfield, History
Dr. Thomas R. Mertens, Biology
Dr. David L. Rice, Education
Dr. J. N. Satterwhite, English
Dr. Warren E. Schaller, Physiology and Health Science
Dr. Lester F. Schmidt, History
Dr. John J. Schroeder, History
Dr. David L. Scruton, Anthropology
Dr. Robert S. Sears, Foreign Language
Dr. Bruce C. Shank, Business Education and Office Administration
Dr. Robert W. Sherman, Music
Dr. R. E. Silverly, Physiology and Health Science
Dr. Forrest F. Stevenson, Biology
Dr. Robert L. Tyler, History
Dr. Edgar S. Wagner, Industrial Education and Technology
Dr. George W. Welker, Biology

Retirement
Dr. Earl A. Johnson, Dean of Teachers College
Miss Mary L. Pearson, Assistant Professor of Library Science
Mrs. Margaret M. Studebaker, Instructor of Accounting
Dr. Myrtle D. Toops, Burris, Professor of Elementary Education
Mrs. Mary H. Myers, Student Affairs

The deaths of several colleagues during the biennium are noted with deepest regret.

Mr. John Hough, Instructor of History
Dr. Robert LaFollette, Head Emeritus of Department and Professor Emeritus of Social Science
Dr. H. A. Jeep, Professor Emeritus of Education
Dr. Laurence J. Scheidler, Professor Emeritus of Social Science
Dr. Howard Thompson, Assistant Professor of English

Dr. LaFollette was killed in an airplane crash in Viet Nam while on an educational mission there. Among others killed in the crash were Dr. James Albertson, President of Wisconsin State University, Stevens Point, formerly Executive Assistant to the President of Ball State University, and Dr. Howard Johnshoy, Dean, Gustavus Aldolphus College, formerly Dean of Students, Ball State University.

In addition to their academic responsibilities, faculty members make valuable contributions in their fields through research and writing and participate in professional organizations at the national and state levels. The following lists are representative only, and in no way definitive, of the activities in which faculty members were engaged during 1965-67.

Research and Writing  The following list is illustrative only, since it is impossible to present a complete list.

Books
Dr. Alan Huckleberry and Dr. Edward Strother, Speech Education for the Elementary Teacher, published by Allyn and Bacon, 1966.

Booklets
Mr. Ted DeVries, Dr. Anthony Tovatt, Dr. Ebert L. Miller, and Dr. David Rice, "Rationale for a Sampler of Practices in Teaching Junior and Senior High School English," published by the National Council of Teachers of English, 1965.
Dr. Donavon Lumpkin, "Improving Reading, Grades 7-12, in All Subject Areas," published by the Reading Center, Ball State University, 1965.

Dr. Ruth Myers and Dr. Louise Gates, "Effective Listening and Cognitive Learning," published by Ball State University, 1966.

**Ball State Faculty Monographs**

Dr. Peter Cortland, *Sentiment in Flaubert's Education sentimentale*, Monograph No. 4.

Dr. Donald L. Barnes, *Psychological Considerations in Religious Education*, Monograph No. 5.

Dr. Merle Fifield, *The Castle in the Circle*, Monograph No. 6.

Dr. William A. Sutton, *Exit to Elsinore*, Monograph No. 7.

**Articles**

Mr. Gerry Mendelson and Dr. Robert Clements, "A Survey of Programs of Art Education in the Public Schools," *Hoosier Schoolmaster*, 1966.

Mr. Stuart Sheeley, "In-service Training and the New English Teacher," *Hoosier Schoolmaster*, 1966.

National and State Professional Activity
The following list is illustrative only, since it is impossible to present a complete list.
Dr. Jay Church, president, East Central Indiana Personnel and Guidance Association.
Mr. Earl Dunn, editor, National Band Association Letter. Executive board member, National Band Association. Outstanding alumnus, State College of Iowa.
Dr. Robert Evans, invited by Educational Testing Service to be one of the readers at Princeton, New Jersey, of the College Board English Examinations.
Dr. Ebert L. Miller, consultant to the Indiana State Department of Corrections (together with Dr. W. W. Renke and Dr. Robert Hill). Commissioned to develop a test for the selection of probation and parole officers.
Dr. Betty Robinett, served on panel to read proposals for 1966 NDEA Institutes for Teaching English as a Foreign Language.

Community Service
Faculty members also participated in numerous community activities—charitable, governmental, religious, and service—during the biennium. Several persons served the community in appointive and elective posts, others in professional advisory capacities, and still others by their continuing support of various community enterprises. The following list is presented as illustrative only and not as a complete account of faculty participation in community affairs.
Dr. Edwin Biggerstaff, vice president, Board of Directors, Delaware County Mental Health Association.
Dr. William Casey, director of music and member of Vestry, Grace Episcopal Church. Muncie Symphony Orchestra. Boy Scout Committee.

Grants
During the biennium the following grants were received; they made possible the extension of many needed services and programs. Financial support received for these grants is included in the total reported under Gifts and Grants (see page 36).

From the Department of Health, Education, and Welfare
Dr. Donald G. Ferguson, Associate Professor of Education, a continuing grant for the summers of 1965 and 1966 for a workshop for "Curriculum Study of the Education of the Deaf."
Dr. E. John Pole, Associate Professor of Education, two grants for the summers of 1965 and 1966 for an institute for training teachers of disadvantaged youth.
Dr. Betty W. Robinett, Associate Professor of English, two grants for the summers of 1965 and 1966 for an institute for training teachers of secondary English.
Dr. George W. Beatty, Chairman of Department of Geography and Geology and Professor of Geography, a grant for the summer of 1966 for an institute for training teachers of geography.
Dr. Frederick Binder, Assistant Professor of History, a grant for the summer of 1966 for an institute for training teachers of history.
Dr. Ebert L. Miller, Associate Professor of Psychology, a grant for the summer of 1966 for an institute for preparation of public school personnel to evaluate present and future Title I projects.
Dr. Robert E. Hill, Jr., Professor of Psychology and Director of Examination Services, a grant for the summer of 1966 for an institute to develop research competencies for faculty members from small colleges and universities with the capabilities of becoming leaders in research on their own campuses.
Dr. Joseph W. Hollis, Professor of Education, a grant for the summer of 1966 for an institute for preparation of teachers in the area of counseling and guidance education.

Under the National Defense Education Act, Ball State was awarded two additional graduate fellowships for the 1965-66 year on a two-year
basis, and six additional graduate fellowships for the 1966-67 year on a three-year basis. The program was directed by Dr. Robert H. Koenker, Dean of Graduate Programs and Professor of Education and Psychology.

Under the Higher Education Act of 1965, Ball State was awarded eight graduate fellowships for the 1966-67 year on a two-year basis. Dr. Betty W. Robinett, Professor of English and Administrative Assistant to Head of Department, directed the program.

Under the College Library Resources section of the Higher Education Act of 1965, Ball State was awarded a grant during 1965-66 academic year under the direction of Dr. Marion Grady, Head of Department of Library Science and Professor of Library Science, to provide funds for the purchase of library materials.

Dr. Elizabeth F. Spencer, Associate Professor of Special Education, grants for the 1965-66 and 1966-67 academic years for the preparation of professional personnel in the education of mentally retarded children.

Mr. J. Dean Twining, Assistant Professor of Special Education, grants for the 1965-66 and 1966-67 academic years for the training of teachers of the deaf.

Dr. Richard A. Hoops, Associate Professor of Special Education and Speech and Director of the Speech and Hearing Clinic, a grant for the 1966-67 academic year for training of personnel as therapists in the area of speech and hearing.

Grants during the 1965 and 1966 summers and the 1965-66 and 1966-67 academic years to provide wages for economically deprived students. The program was directed by Mr. Norman Beck, Director of Student Financial Aids.

Matching grants were received for support of equipment programs as follows:

Dr. Alan W. Huckleberry, Professor of Speech and Head of Department of Speech and Mass Communications, for closed circuit television from the central location in the Communications unit of the English Building to other buildings on campus.

Dr. Park A. Wiseman, Head of Department of Chemistry and Professor of Chemistry, for chemistry equipment for the Physical Science-Mathematics Building.

Mr. Pete J. Carr, Assistant Professor of Art at Burris Laboratory School, a grant for the study of the relationship of art quality to sociological, motivational, and economic factors of the child in the primary grades.

An institutional assistance grant under the Higher Education Act of 1965 to improve the program for prospective high school teachers of English. The program was directed by Dr. Thomas Wetmore, Head of Department of English and Professor of English.

A grant for in-service development of teachers of the disadvantaged subcontracted to the American Association of Colleges for Teacher Education, Washington, D.C.

Dr. Robert D. Clements, Assistant Professor of Art, a grant under the National Defense Education Act for research on experience motivation versus media motivation in an art program in the primary grades.

A grant under the direction of Mr. Norman Beck, Director of Student Financial Aids, to exceptionally needy, full-time students from low-income families.

From the Office of Economic Opportunity
Ball State was awarded for the period April 1, 1966, through June 30, 1967, a grant through the Muncie Community Schools under the direction of Dr. Alice Nichols, Head of Department of Art and Professor of Art, to provide financial assistance in the establishment, operation, and maintenance of a supplementary educational art center for East-Central Indiana.

Dr. Richard T. Alexander, Jr., Associate Professor of Education, a grant during the summer of 1966 and the 1966-67 academic year to provide a study of the role and function of the non-professional auxiliary personnel in public elementary school classrooms.

Grant for the summer of 1965 from the national University Extension Association and for the summer of 1966 through Lear Sigler, Inc., for three one-week workshops each summer under the direction of Dr. George Mascho, Associate Professor of Education, to train individuals as staff personnel in Head Start Child Development Centers.

Dr. Jack E. Cousins, Associate Professor of Education and Sociology, a grant for the summer of 1966 through the Associated Migrant Opportunity Services for a training program to provide for the teaching of migrant children.

From the National Science Foundation
Dr. Jerry J. Nisbet, Chairman of Department of Biology and Professor of Biology, a grant for the summer of 1966 for preparation of secondary teachers of biology.

Matching grants were received for support of Undergraduate Scientific Equipment Programs by the following:

Dr. Earl H. McKinney, Head of Department of Mathematics and Professor of Mathematics, a grant for scientific equipment, reference materials and films.

Dr. Charles E. Smith, Jr., Assistant Professor of Biology, a grant for scientific equipment in the field of botany.

Dr. Benjamin K. Swartz, Jr., Assistant Professor of Anthropology, a grant for scientific equipment and tools for the field of anthropology.
Dr. Thomas R. Mertens, Professor of Biology, a grant for scientific equipment, reference materials and teaching aids in the field of biology.

Dr. Carson M. Bennett, Head of Department of Psychology and Professor of Psychology, a grant for scientific equipment in the field of psychology.

Dr. Malcom Hults, Head of Department of Physics and Associate Professor of Physics, a grant for reference materials in the field of physics.

Mr. Julio V. Cano, Instructor of Mathematics, a grant for support of the extension of a research project in mathematics in cooperation with Michigan State University.

An institutional grant for undergraduate science education and research participation under the direction of Dr. Robert Carmin, Dean of Colleges of Sciences and Humanities and Professor of Geography.

Dr. John A. Beekman, Associate Professor of Mathematics, a grant during the 1965-66 academic year for research entitled “Gaussian Markov Processes and Small-Sample Distributions for the Kac Statistic.”

From Other Federal Agencies, State Agencies, Foundations, Industry, etc.

Funds were received from the following foundations and industries for support of workshops during the summers of 1965 and 1966 for disadvantaged college freshmen: General Motors-Allison Division; William B. Stokely, Jr., Foundation; Warner Gear Division; the Magnavox Company; Radio Corporation of America; The Leo & Anna Schwartz Foundation; Schemmel-Keck Foundation; The Oberdorfer Foundation; H. A. Thrush Foundation; Ford Motor Company; and P. R. Mallory Co. Foundation, Inc. The program was directed by Dr. John Hannaford, Professor of Economics, during the summer of 1965 and by Dr. Joseph R. Rocha, Jr., Assistant Professor of Economics, during the summer of 1966.

Grants for the 1965 and 1966 summers from the U.S. Office of Education through the Indiana Department of Public Instruction for the training of teachers of the trainable mentally retarded in cooperation with the Noble School in Indianapolis. The program was directed by Dr. Donald Y. Miller, Head of the Department of Special Education and Professor of Special Education.

Public Law 85-926 as amended by Public Law 88-164 provides through State Departments of Public Instruction grants in support of students enrolled in courses designed to train teachers of handicapped children. Ball State University received grants under these programs for the 1965 and 1966 summers and the 1966-67 academic year.

Under Title V-A program of the National Defense Education Act through the Indiana State Department of Public Instruction, grants for the 1965-66 and 1966-67 academic years to provide pilot program for elementary school guidance counselors. This program was directed by Dr. M. Curtis Howd, Principal and Head of Burris School and Professor of Education.

Dr. James H. McElhinney, Associate Professor of Education, a grant through the Indiana State Department of Public Instruction to provide assistance to local school systems in preparing applications for Title I Grants.

Dr. Earl Montague, Associate Professor of Chemistry and Science Education, a grant from the National Aeronautics and Space Administration for support of a basic scientific research entitled “Study and Analysis of Space Related Developments in Physical and Biochemistry.”

Dr. Leon M. Reynolds, Associate Professor of Physics, a matching grant from the Atomic Energy Commission for purchase of equipment for use in pursuing graduate thesis projects in pure physics and nuclear science.

A grant from Dr. Will Moore and Dr. Tom Moore of Muncie for “Bio-Medical Research and Education” directed by Dr. William Bowman, Assistant Professor of Chemistry, and Dr. Raymond Henzlik, Associate Professor of Physiology and Health Science.

Dean Richard W. Burkhardt, Vice President for Instructional Affairs and Dean of Faculties, a grant from the Carnegie Foundation through Antioch College at Yellow Springs, Ohio, for conducting a study of the future of liberal arts colleges.

A grant from the Mott Foundation, Detroit, Michigan, under the Office of Extended Services of Ball State University to extend the concept of community education services in the State of Indiana.

A grant from the Sperry and Hutchinson Foundation, New York, New York, under the direction of Dr. Thomas R. Mertens, Professor of Biology, for a series of lectures in the field of genetics and anthropology.

Dr. Henry E. Kane, Associate Professor of Geology, a grant from the Indiana Academy of Science to map the glacial geology of Delaware County, Indiana.

Dr. Thomas R. Mertens, Professor of Biology, a grant from the Indiana Academy of Science for research of plant systematics.

Dr. W. G. Pippenger, Director of University Health Service and University Physician, a grant from the Ives Laboratory for a research study of the effect of Ives pharmaceutical products on students at Ball State.

Dr. Anthony L. Tovatt, Professor of English at Burris Laboratory School, a grant from Cooperative Educational Research Laboratory,
Inc., Urbana, Illinois, for action research as an in-service strategy for improving instructional practices.

Dr. Henry E. Kane, Associate Professor of Geology, a grant from the Non-Western Studies Institute for the reconnaissance of the physical geography and geology of Mexico.

A grant from the Clark Equipment Company, Buchanan, Michigan, and Ernst and Ernst, Indianapolis, Indiana, to provide for research by graduate students of Ball State's College of Business.

The McClintock Awards were made to Mr. Norman T. Bell, Assistant in Instruction, and Dr. James G. Hunt, Associate Professor of Education and Psychology, for the support of a project involving the writing of a series of student self-study programs to accompany the introductory course in general psychology, and to Dr. Jake Reams, Associate Professor of Industrial Education and Technology, for the support of the project "An Integrated Experience Approach to Wood Technology."

The Fulbright lectureship at the University of Guyana, Georgetown, British Guiana, was received by Dr. Robert L. Tyler, Professor of History, for the 1966-67 academic year.

**Burris School** During the biennium pupil enrollment varied from 850 to 800 at Burris School, which continued to serve as a laboratory for teacher education. Approximately 2,443 university students had participation assignments during 1965-67.

**Graduate Program** As of August 18, 1967, Ball State had awarded a total of 8,505 graduate degrees as follows: Master of Arts in Education, 6,262; Master of Arts, 2,044; Master of Music, 18; Specialist in Education, 22; Doctor of Education, 46; Doctor of Philosophy, 10; Doctor of Education in cooperation with Indiana University, 17; and Doctor of Philosophy in cooperation with Purdue University, 4.

Ball State's graduate programs were expanded during the biennium so that by June, 1967, the following graduate degree programs were available: the Master of Arts in Education in elementary education and in 38 subject fields; the Master of Arts in 42 subject fields; the Master of Science in 9 fields of science and mathematics; the Master of Music; the Specialist in Education in 9 fields of education, industrial education, music, and social science; the Doctor of Education in art education, English education, elementary education, guidance and counseling, educational administration, science education, and social science education; the Doctor of Philosophy in elementary education and social science education; the Doctor of Education in cooperation with Purdue University in 15 fields of study; and the Doctor of Philosophy in cooperation with Purdue University in guidance and counseling.

During the year 1966-67 there were approximately 1,700 part-time and approximately 500 full-time graduate students enrolled each quarter in campus day, evening, and Saturday classes. Of the full-time students, 132 were serving as graduate assistants, 62 were Ball State doctoral fellows, and 14 held NDEA Title IV and HEA Title V graduate fellowships.

**Extended Services** An increase in requests for educational assistance was noted during the biennium as growing communities outside the traditional population centers requested assistance with higher education and broad community education development.

The biennium brought fruition of several years of effort to establish a service in community education initially sponsored by the Mott Foundation. Research is being conducted to develop procedures for community education development.

Correspondence instruction is being developed with new materials and with new incentives to faculty who will develop and service courses.

Student needs are basic to the very existence of all programs of the university, and certain services at Ball State are devoted to other than classroom needs. Administratively within the Office of Student Affairs, these areas continue to share a dedication to the total development of each student.

Registrar and Admissions  Ball State University continues to accept beginning freshmen in three classifications of admission: regular admission, admission with distinction, and admission with warning. As of 1965, Indiana residents who were admitted with warning (i.e., not qualifying for regular admission or admission with distinction) were directed for admission to the Winter and Spring Quarters. This policy has permitted the university to make maximum use of facilities while still providing the opportunity for attempting higher education to those who desire it.

New student admissions to undergraduate study in 1966 showed a slight decrease as compared with 1965 because of fewer graduating high school seniors. The following figures reflect the increase/decrease in admissions activity during the biennium:

Student Housing  The opening of Studebaker Halls-East in September, 1965, the arrangements for a part of Maria Bingham Hall from Ball Memorial Hospital, and completion of the first phase of LaFollette Halls during this biennium brought the number of students housed in university halls to more than 4,800. The completion of the LaFollette Halls complex during the summer of 1967 increases the number of university residence halls to 31 and provides accommodations for a total of 6,300 students in halls for the fall of 1967.

Private homes in the university area provide approved housing for approximately 1,600 students each year.

Plans were completed during the biennium for construction of 100 two-bedroom apartments north of the new stadium by Autumn Quarter, 1968. These will be the first phase of the Scheidler Apartments for married students.

Student Financial Aids  A summary of scholarship, loan, and employment statistics for the biennium is shown below.

Three new aid programs were put into operation the second year of the biennium. Educational Opportunity Grants to 212 exceptionally needy students regardless of academic ability totalled $70,849. Under the State of Indiana Guaranteed Bank Loan Program, 579 loans were processed for a total of $528,520. Requests for approximately 600 veterans were processed under the Cold War G.I. Bill (Public Law 388) for the first time.

The walk signal directs traffic at the intersection of Riverside and McKinley Avenues.
Counseling and Psychological Services  Some of the services provided by the Psychological Services Center for the period July 1, 1965, through June 30, 1967, may be summarized as follows:

</table>

In addition 24 other tests in 1965-66 and 23 other tests in 1966-67 were administered for departments, other institutions, companies, etc., which involved 1,154 students in 1965-66 and 1,393 students in 1966-67.

Professional Selection  In this relatively new area (established in 1964) procedures were developed and approved during the biennium so that by Autumn Quarter, 1967-68, the process of admission and selection of upperclass students to certain curricula could be extended to include all curricula of the university.

In addition to initiating the review of each student's application to a curriculum and maintaining continuous communication with all related professional and administrative areas, the Office of Professional Selection coordinates pertinent information submitted by other areas for the selection and approval process.

International Student Programs  In 1965-66, 60 international students from 27 countries were enrolled in undergraduate and graduate programs; in 1966-67, 79 students from 31 countries were enrolled.

In 1966-67, the university purchased a house which it designated as International Center; it is available for activities for both American and international students.

Health Services  The following health services were extended to students at the Amelia T. Wood Health Center during the biennium:

<table>

</tbody>
</table>

Student Programs  Through a coordinated program of student activities and new student orientation, the Office of Student Programs continued to extend opportunities for students to learn from extraclass experiences. The number of approved student organizations increased from 180 in 1965-66 to 192 in 1966-67. In each year of the biennium more than 7,000 new students and parents participated in the orientation programs designed to ease the transition of students from high school to university, to familiarize parents and students with Ball State's programs, and to introduce them to services, facilities, and personnel.

Religious Activities  Through the Office of Religious Programs the work of 23 student groups sponsored by 26 religious denominations and local churches was related to the university during the biennium. On-campus religious activities, such as Religious Emphasis Week and discussion and study groups, involved the director in working closely with the Student Religious Council and the Council of Religious Advisors.

Student Voluntary Services was a new program in 1966-67. Over 300 students tested and discovered their own values as they spent one or two hours weekly visiting and helping the elderly in local nursing homes or tutoring and assisting culturally deprived children of the community.

Placement Office  The number of requests for Ball State graduates spiraled from 33,392 in the first year of the biennium to 52,873 in the second. More than 10,000 of the requests in 1966-67 were for Ball State doctoral candidates.

Of the 1966 graduating class, the percentages employed were 99.1 per cent of all who received bachelors' degrees in education and 96.9 per cent of all with bachelors' degrees in other fields, 99.8 per cent of those who received masters' degrees and 100 per cent of those awarded specialist or doctoral degrees.
The aim of the Office of Public Affairs and University Development is to report and promote university activities and programs in such a way that the public will have an understanding and appreciation for Ball State University. The efforts should result in seeking adequate support for current operations and capital outlay from the Indiana General Assembly and in the stimulation of giving by alumni and friends of the university for programs that tax dollars do not support. Designing campus buildings, hosting and planning conferences, and coordinating campus traffic activities are other responsibilities of this area.

Development (Campus Planning) During the biennium construction was started on the following buildings: Nursing Education (January, 1966), Library remodeling (January, 1966), Teachers College Building (May, 1966), Stadium (November, 1966), and Swimming Pool (bids opened March, 1967). Planning was also started on three other facilities: Life Science—Unit III of the Science Complex to provide laboratories and offices for biology, geography, physiology, and health science; Johnson Residence Halls; and Scheidler Apartments for married students.

In September, 1965, the final units of Anthony Apartments were opened for occupancy. Building No. 4 of LaFollette Halls, specifically Woody and Shales Halls, was completed in September, 1966, and occupied by 450 students. Also ready for occupancy were the new Library facilities created by converting Assembly Hall into three floor levels. The Mathematics Department was moved into the Physical Science and Mathematics Building at the beginning of Spring Quarter, 1967.

While no difficulty actually arose in the planning process, it did become necessary to re-evaluate plans in view of rising construction costs.

Development (Fund Raising) A full-time director of development joined the staff during the biennium. A continuing Parents' Fund was established, with the parents of 10,000 students invited to participate. Ball State University Foundation employed Ketchum, Inc., to make a survey of the fund-raising potential during the fiftieth anniversary year of 1968.

A basic data fund of all corporate members of eastern Indiana industries was developed, and this stimulated greater emphasis on personal calls. Development of an organized deferred-giving program is being completed.
Public Information Services

This area has a professional staff of communications and graphics specialists in the News Bureau, University Publications, Photo Service, and Display Service who serve the faculty, students, the university, and the public in a variety of ways.

Ball State's becoming a university on February 8, 1965, and the creation of new colleges, divisions, departments, and programs have added to the scope and variety of new services that Public Information Services has been called upon to perform. During the biennium all areas within Public Information Services were involved to some degree in the following projects:

**Eastern Indiana Medical Center Project, Inc.** The professional staff assisted the leadership of the project in producing a 40-page brochure, *You, Your Family, and the Doctor Shortage*; provided copy, graphics and photos for a 12-page supplement, *"Indiana Needs More Doctors,"* published by the *Muncie Evening Press and Muncie Star*; coordinated and produced the films and scripts for 114 film releases for television news programs; produced a newsletter, news releases, statistical charts, and exhibits.

**Ball State's 50th Anniversary** The bulk of the work prior to the celebration of Ball State's 50th anniversary in 1968 has been done by Public Information Services in the form of editing and adding an appendix and 177 pictures to the 276-page volume, *The Ball State Story.* Public Information Services also served as consultant to Glenview Productions Company in the production of a 28-minute sound and color film, *"Bridge to Tomorrow,"* for television and public showings. Both stills and motion picture footage were provided.

**Threshold, 1965** Assistance was provided for preparing invitations and brochures, promotion, and publishing the speeches for *Threshold-Ideas for a New University* in September, 1965.

**Indiana Sesquicentennial** Public Information Services promoted Indiana's 150th anniversary of statehood through a variety of brochures, news releases, and exhibits for the Arts Festival, History Lecture Series, art exhibit: "150 Years of Indiana Art," the State Fair exhibit with the theme: "Ball State: Growing with Indiana," Homecoming, and other programs and events.

**State Department Community Meetings** Public Information Services co-sponsored with WFBM-TV a series of university and community meetings involving five representatives from the U.S. Department of State who spoke on foreign policy in Southeast Asia, with the East Europe satellite countries, and NATO.

**News Services** Over 6,000 news releases were prepared in 1965-66 and an increased number in 1966-67 by the News Bureau professional and student staff. The volume of news releases and news photos increased because of such new areas as architecture and nursing and because of new lectures series in these areas and in psychology, history, the S&H Foundation lectures, etc. The Music Division alone in 1966-67 had 102 events, all of which had one or more news releases, including individual releases to hometown newspapers of every student involved in a musical program. Service covers workshops, institutes, and conferences such as that of the Indiana Chapter of the American College of Surgeons. The News Bureau publishes *Presenting Ball State* three times a year and a weekly on-campus information newsletter, *On the Ball.*

**Photo Services** Working closely with the News Bureau, the Photo Service had an increased volume of photo work and added motion picture film coverage for television to its services. Motion picture equipment made it possible to film athletic events, some instructional programs, and special footage for WBST-TV. There was an increased volume of work in slides, charts, graphics, and color work.

**Radio and Television** News Bureau increased the coverage of news to radio and television, provided some film for television, coordinated news conferences on campus, and arranged for guests to appear on the "Muncie Tonight" show on WLBC-TV.

---

The University Singers made a hit with audiences at home and away during the biennium. Here they entertain in Emens Auditorium.
Advertising  The News Bureau handled an increased volume of institutional advertising in professional journals and special events advertising for newspapers, radio, and television.

Promotion Work  Public Information Services handled the promotional materials for all University-sponsored events in Emens Auditorium, including the Concert Series, Artist Series, Student Pops Series, Homecoming shows, University Singers Spectacular, the band's "Halftime Highlights," and other shows. A Creative Arts Calendar is published nine times a year for distribution to patrons.

Publications  The change to university status also affected the volume of work in University Publications. A new format was designed for the 1966-68 Catalog as well as for several other publications, including the Campus Guide, Proceedings of the Indiana Academy of the Social Sciences, and the Faculty Lectures. The Publications Office revised the annual editions of Introducing Ball State, residence hall brochures, religious programs booklet, and numerous other regular publications, and also continued to handle such faculty-edited publications as Proceedings, Indiana Sesquicentennial Poets, Twenty-Two Young Indiana Writers, and the three issues a year of the Ball State University Forum and the Indiana Social Studies Quarterly. Publication of departmental information sheets for the use of the Office of Admissions was resumed, and an increased number of flyers for graduate work and special summer programs were prepared. In addition to the five new faculty monographs listed earlier in this report, two faculty research publications and the eight quarterly faculty lectures were edited and published during the biennium. Altogether, 312 publications were completed during 1965-67.

Exhibits and Displays  A growing number of original and attractive exhibits were designed for the Indiana State Fair, the Homes Show, for conferences and workshops, and the Student Center. Display Service produced a large volume of posters, charts, graphics, and other illustrative materials for the university.

Alumni Relations  The Alumni Office maintained current information on some 28,000 alumni during 1966-67. The Alumni Association Executive Committee provided nine alumni scholarships and awarded twelve alumni merit scholarships in each year of the biennium. In addition, eighteen students benefited each year from faculty memorial scholarship programs initiated and/or supported by alumni contributions.

Conferences  In 1965-66 Ball State hosted 105 conferences that attracted more than 36,000 conference guests to the campus. These figures represent an increase of 12,785 persons over the previous record high fiscal year 1964-65 and a gain of 18 per cent in the total number of conferences hosted.

Traffic, Safety, and Security  Increased demands for parking continue to grow, making strict enforcement of vehicle regulations imperative to insure proper use of available facilities. The Office of Traffic, Safety, and Security offers increased services in the best interest of all concerned.

Art Gallery  Each year of the biennium the works of approximately seven hundred American artists were entered in the university’s Annual Drawing and Small Sculpture Show—the twelfth in 1966, the thirteenth in 1967. Ball State’s Traveling Exhibit, comprised of selected drawings from past Drawing and Small Sculpture Shows, visited several other universities, colleges, and museums.

Among the many special exhibits in the Art Gallery were the Indiana Sesquicentennial, Japanese Lithograph, Eastern Indiana, and Student Shows. Numerous tours, talks, and receptions for visiting artists were given. John Cavanaugh in 1966 and Jennifer Dickson in 1967 were the visiting artists for the annual Summer Arts Festival.

Viewing the latest exhibit in the Art Gallery is a must for many students.
The following résumé reflects the financial activities of Ball State University for the two-year period which ended June 30, 1967. A more detailed analysis of the financial operations of the university is contained in the annual financial reports compiled by the Office of the Vice President for Business Affairs and Treasurer for the respective years of the biennium.

Current Operations

General Fund

The Current Operations General Fund budget includes instructional departments, administration, public services, and general expenses of the university. Receipts and disbursements for the two years are summarized as follows:

<table>
<thead>
<tr>
<th>RECEIPTS</th>
<th>1965-66</th>
<th>1966-67</th>

</tbody>
</table>

Self-liquidating Enterprises

The operations of the university's residence halls, dining services, and student union facilities grossed approximately $13,596,000. These revenues were used for paying current expenses of the enterprises, providing additional similar facilities necessary for the future growth of the university, and retiring bonded indebtedness.

*During the biennium the university paid $3,178,746.88 in principal and interest on its bonded indebtedness which totaled $36,268,000 as of June 30, 1967.

*Architectural sketches of (from top to bottom) Scheidler Apartments for Married Students, Teachers College Building, and Johnson Halls.
Capital Outlay and Rehabilitation

State Funds The Indiana General Assembly granted an appropriation of $1,550,000 for construction, land acquisition, and rehabilitation during the 1965-67 biennium. This amount was allocated to the following projects:

<table>
<thead>
<tr>
<th>Project</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>New Boiler for Heating Plant</td>
<td>$98,000</td>
</tr>
<tr>
<td>Expansion of Library Facilities</td>
<td>$525,083 (partial cost)</td>
</tr>
<tr>
<td>Nursing Education Addition</td>
<td>$575,329 (partial cost)</td>
</tr>
<tr>
<td>Land Acquisition</td>
<td>$135,000</td>
</tr>
<tr>
<td>Renovation of Administration Building</td>
<td>$216,588 (partial cost)</td>
</tr>
</tbody>
</table>

$1,550,000

All of the above projects were completed or under construction at the close of the biennium with the exception of the renovation of the Administration Building. Supplementing state appropriations for the expansion of library facilities, grants were received under both Title I and Title II of the Higher Education Facilities Act of 1963 as amended in 1965. The final project cost approximates $1,140,000. The total estimated cost of the Nursing Education Addition to the Physical Science-Mathematics Building is $1,380,000 with the difference being financed under Title VII of the Public Health Service Act. Plans are on the drawing board for the renovation of the Administration Building to be financed from state capital appropriations of 1965 and 1967.

Bonding Authority by Indiana General Assembly for Academic Buildings The 1965 Indiana General Assembly provided for the first time bonding authority for academic buildings and established the maximum amount which could be used in this manner. Under construction at the close of the biennium, the Teachers College Building (estimated to cost $4,913,000) is being financed under this bonding authority as well as grants under Title I and Title II of the Higher Education Facilities Act. The Central Campus Chilled Water Plant (Phase I), also financed under the bonding authority, was completed during the biennium at an approximate cost of $551,000. Also on the drawing board are plans for the Life Science Building which will be financed under the bonding authority and federal grants.

Bonding Authority by Indiana General Assembly for Self-liquidating Projects The 1965 Indiana General Assembly also amended Chapter 137 of the Acts of 1927 by restricting the power of the state universities on the maximum amount of bonding authority granted for the construction of self-liquidating projects. Anthony Married Students Apartments Three, constructed under this authority at a cost of $567,963, opened in the summer of 1965, accommodating 45 student families. The LaFollette Halls complex with appurtenant dining facilities and housing 1,940 students is also being constructed under this authority, and will be ready for full occupancy in the fall of 1967. This entire structure has a total cost of approximately $11,079,000. Both of these projects are being financed by a loan through the Department of Housing and Urban Development, sale of bonds through private purchase, and auxiliary earnings.

Also scheduled for early bidding under this bonding authority, as listed in the 1967 Indiana Acts, are Phase I of the Scheidler Apartments to provide 100 apartments for married students, and Phase I of the Johnson Halls complex to provide residence and food services for approximately 939 students. The entire Johnson Halls complex is anticipated to accommodate 2,260 students.

Other Projects A contract was awarded in the spring of 1967 for the construction of the Swimming Pool Addition to the Physical Education Building for Men. This project, estimated to cost $1,427,000, is being financed through student fees and a grant under Title I of the Higher Education Facilities Act.

The 11-story Teachers College Building, first high-rise classroom facility at Ball State, was at this stage of construction by May, 1967.
The first units of the permanent Football Stadium and Athletic Facilities located at Benadum Acres will be completed in the autumn of 1967. The facilities will include a 10,000-seat stadium, space for parking, and adjacent areas for field sports. This project, at an estimated cost of $1,038,000, is being financed through student fees.

Elliott Apartments, a twenty-unit complex, was purchased for $100,000. The facility is adjacent to campus and provides housing for university faculty members.

**Land Acquisition** Using funds derived from state appropriation monies and other earned income, properties were purchased during the biennium at a total investment of $555,938. These properties are either contiguous to land already owned or in the immediate vicinity, making the acquisition desirable from the standpoint of long-range planning. At the close of the biennium the total campus holdings amounted to more than 575 acres.

**Gifts and Grants** In earlier sections of this report, grants received by Ball State University have been listed according to sources of funds and type of program. Also, reference has been made under the Business Affairs section concerning grants under Title I and Title II of the Higher Education Facilities Act of 1963 and Title VII of the Public Health Service Act. Total gifts and grants during the 1965-67 biennium awarded for these purposes to Ball State University and/or Ball State University Foundation totaled $7,046,441. The breakdown by source of funds is as follows:

<table>
<thead>
<tr>
<th>Source of Funds</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>from Department of Health, Education, and Welfare</td>
<td>$2,285,572</td>
</tr>
<tr>
<td>for educational grants</td>
<td>$2,285,572</td>
</tr>
<tr>
<td>for construction grants</td>
<td>3,990,069</td>
</tr>
<tr>
<td>from National Science Foundation</td>
<td>90,843</td>
</tr>
<tr>
<td>from other state and federal agencies, foundations, industries, etc.</td>
<td>779,957</td>
</tr>
</tbody>
</table>

It should be noted that an increase of $2,550,842 was awarded for construction under Title I and Title II of the Higher Education Facilities Act of 1963 and Title VII of the Public Health Service Act in the biennium ending June 30, 1967, over the amount awarded for the biennium closing June 30, 1965.

Ball State University Foundation was organized for the primary purpose of administering bequests made to the University in ways best suited to its welfare. Its charter, issued by the State of Indiana, is perpetual. For wills, the legal title of the corporation is "Ball State University Foundation, a corporation, Muncie, Indiana."
