Jo Ann M. Gora began serving as Ball State University’s 14th president in August 2004. Under her leadership, the university has made immersive learning the hallmark of every Ball State student’s college experience. From 2007–2009, more than 5,300 students completed 285 immersive learning projects throughout Indiana.

Gora has led an update of Ball State’s strategic plan, which is the basis for the university’s capital campaign, Ball State Bold. The campaign will raise $200 million by 2011. She recently earned the Mira Trailblazer Award from TechPoint for her significant and lasting contributions to technology innovation in Indiana.

Gora was one of the 12 charter signatories to the American College and University Presidents Climate Commitment in December 2006. In May 2009, Gora and other officials broke ground on the nation’s largest ground source geothermal energy system. When completed, it will heat and cool more than 45 buildings on campus, saving the university $2 million a year while reducing its carbon footprint by nearly half.

In 2008, she was awarded an honorary doctorate from Yeungnam University in South Korea. She was Indiana’s representative to the American Association of State Colleges and Universities board and was an inaugural member of The New York Times/Chronicle of Higher Education higher education cabinet. She chairs the Mid-American Conference Presidents’ Council and co-chairs the Central Indiana Corporate Partnership. She serves on the boards of the Indiana Chamber of Commerce, First Merchants Bank, and Ball Memorial Hospital.
