

Abstract

CREATIVE PROJECT: Transitioning Traditional Print to the Medium of Mobile Digital

STUDENT: Stuart Cotton

DATE: May 2015

PAGES: 23

This project explores the current relationship between traditional print and interactive digital media. By projecting the concept of “something” through both mediums, limitations and advantages of each medium are exposed. The goal for this project is to demonstrate how a digital app can accommodate traditional formats, while also exploring new patterns of presenting stories.

Keywords: Book App, Traditional Print, Digital Storytelling
