Yangtze to Fuji

An Honor's Thesis Project by

Spring 2003
Abstract

It isn’t too often that teachers or professors touch upon the Far East as an integral part of the world. Most of the teaching that goes on is slanted towards the west. Yangtze to Fuji is an attempt to create some curiosity about the Far East. The hope is that people will see the video and want to learn more about the places shown. It also shows the emotional connection the author has created with the Far East over the past eleven years.

Acknowledgements

I would like first to thank my family for helping to foster in me a desire for knowledge. My parents and grandparents have made many of my trips to Asia possible over the years, and for that I am in their debt. I would like to thank my advisor, Dr. Liu, for taking me and my project on even when it didn’t seem to make much sense. I would like to thank my friends for not forgetting me while I was away. I want to thank Torrey and Joe for helping with my project when I couldn’t figure out what to do next. And finally, I want to thank Torrey for creating such wonderful promo cards.
