Emergency Siren and Floodplain Spatial Analysis

Legend

- Addresses in Flood Zones
- Emergency Sirens
- Emergency Siren Coverage
- City Boundaries
- Townships
- Streets
- 1% Flood no BFE
- 1% Flood BFE
- Hendricks County

412 households are located within flood zones, 323 (78.40%) of these are covered by existing sirens, and an additional 63 addresses would be covered by proposed sirens (93.69%)

Base Flood Elevations (BFEs) are shown on this map. The BFE is the regulatory requirement for the elevation or floodproofing of structures. BFEs are areas of likely flood prone areas. While no BFEs are likely, however they do not have a specified flood level.
