This creative project is a comprehensive description of how to develop a volleyball camp and LLC. It gives a detailed outline of the developmental stages of obtaining an LLC, facilities, restaurants and staff databases, budgeting, legal and insurance implications, marketing plans, camp websites, as well as the agendas and drills for the actual camps themselves. This would be helpful for administrators and coaches who are looking to develop a sports camp. This description would not only be helpful for volleyball camps, but it could be used for any sport camp. It provides a detailed guideline of the steps one should take in order to prepare and host a successful camp LLC.
