## IDENTITY & CONNECTIVITY: DESIGNING A MORE INCLUSIVE NORA

---

In this project, we look for the barriers and potential of using Nora's urban spaces in an inclusive way and recommend future urban design propositions and interventions.

5th-Year [Ball State University - College of Architecture and Planning](#) Landscape Architecture Students will present their ideas for Nora on Friday, December 10th, 2021 in Nora at the H. Dean Evans Center, 8550 Woodfield Crossing. Students have researched the area, dialogued with residents, and toured the area on foot and by bus. Selected students will share a Master Plan for Nora (1:00 pm), followed by 16 individual projects presented at stations in an open forum (2:00 pm). More information about this event can be found here:  
<https://www.noraindy.org/event/ball-state-5th-year-studio-nora-presentation>.

Instructor: Dr. Dorna Eshrati, Department of Landscape Architecture  
LA 403

# Community Presentation

[digitalresearch.bsu.edu/immersive-learning-showcase-fall-2021/exhibits/show/identity--connectivity--urban-/community-presentation](https://digitalresearch.bsu.edu/immersive-learning-showcase-fall-2021/exhibits/show/identity--connectivity--urban-/community-presentation)

The graphic is a grid of colored blocks. The top-left block is red. The top-right block is blue. The middle-left block is red and contains the Ball State University and Landscape Architecture logos. The middle-center block is blue and contains the NORA logo with a star. The middle-right block is white and contains the Immersive Learning and Provost's Immersive Learning Grant logos. The bottom-right block is red and contains the title 'Identity & Connectivity: Designing a More Inclusive Nora Community' and the text 'By LA 403: Urban Design Studio Fall 2021'. The bottom-center block is blue and contains a list of instructions for the session.
